Building done during the year.

Lahore.—Additions have been built to both the school and hostel buildings.

Hissar.—Five rooms of the new school house have been completed.

Mary Wilson Sanatorium, Tilaunia

Staff:

Early in the year, because of ill health, Dr. O. G. Taylor, who was acting as Medical Director, was forced to go home to America. This left Dr. Martha Nilkanth, Asst. Medical Director, to carry on the work until this fall when Dr. C. I. Kipp returned from furlough. In October Dr. Nilkanth was married and resigned her position. There have been no other changes in the missionary staff.

The Junior staff this year has consisted of two staff nurses, one teacher, one Baby Fold attendant, and the matron.

New Equipment:

A local committee, appointed to purchase batteries for the electrical plant, decided to buy the used batteries from Madar. These were with difficulty installed and for several months were unsatisfactory, but the plant is now in fair working order.

With the gift of money received last year from the Lady Irwin Fund sixteen new hospital beds were purchased. These new beds with adjustable head rests and wheels for rolling them about have afforded great comfort to the very ill patients.

This year another ward was enclosed with expended metal. In front of two of the wards stone platforms were built. The patients are taken out on these
roofless verandas for sunbaths and they also sleep there during the hot weather.

Nurse Training:

Three probationers, who started the nurse’s course found the work too difficult and did not continue their nurse’s training, but were kept on as helpers in the wards.

Seven nurses from Bareilly and five from Brindaban took the three months’ affiliation course in Tuberculosis and School Nursing. Since the inauguration of this course thirty two nurses have completed the work and received certificates.

In connection with health week observed in Ajmer during February the Sanatorium had a tuberculosis exhibit. The nurses prepared stories, lectures, and posters for this. The work done there was a very practical demonstration of the use these nurses can make of their knowledge of tuberculosis and its prevention. By request this work was displayed one day for the Indian princes of Mayo College.

School and Other Activities:

Since the beginning of school in July there have been about thirty children in school. Several convalescent patients have been helping with the teaching and school activities. Handwork, sewing and gardening have afforded useful occupation and healthful exercise for the patients. Sunday School and church services have been conducted as usual.

A teacher from the Ajmer Girls’ School, while spending her summer holiday in Tilaunia, started the Girl Guide work. In July the Provincial Commissioner of the Girl Guides come to Tilaunia and enrolled a company of Girl Guides made up of patients and nurses.

Baby Fold:

Fortunately as there have been no babies in the Baby Fold for some months it was possible to use this building for boys. When the Madar Sanatorium closed some small boys were transferred to Tilaunia. So most of the year there have been little boys in the Baby Fold.

Patients:

| Total number of patients treated | 118 |
| Total number of patient days     | 23,303 |
| Admissions                      | 44 |
Reports 15

Dismissals 53
Deaths 5
Daily average 62

Of those dismissed three were Hindus, forty six Methodists, and four from other missions.

Out-Patient Dispensary:

Maternity cases 2
Minor operations 53
In-patients 4
No. of patients treated 919
Total number of treatments 5,755
Home calls 43

Health Department:

From October 24, 1931 to October 30, 1932 seventeen schools were visited, in fourteen of which all the children were examined. In these schools 1,707 girls, 377 boys, and ninety-six teachers and nurses were examined.

Health Songs that have been translated from the English, and those developed in our Indian schools, were printed in Roman Urdu.

Health lectures were given to the Bengali mothers attending the women’s Institute in Sangrampur, Bihar. One talk was given to the mothers at a District Conference. A request has come from the State Zanana Hospital, Jaipur, for a talk to the nurses there.

Again this year Miss Dunn has been Secretary of the Health visitors’ League of the Trained Nurses’ Assn of India. Calls have come from all sections of India for health helps.

About fifty books on Hygiene and Health Teaching were distributed to our schools.

In Tilaunia twenty lectures on School Nursing were given to three different group of affiliating nurses during the year. It is gratifying to see that the nurses who have had the course are doing considerable Health work in their schools.

In October 1931 in Sitapur, a movie film was made showing a typical School examination in progress. One film was sent to U. S A. to help make the Health programme of Mary Wilson Sanatorium better understood there.

It is expected that Miss Fernstrom will return some time next year. Miss Dunn plans to go on furlough in May.

One of the most significant things of the conference was the spirit of faith, and hope and courage which was manifest in facing the work of the coming year—a year full of difficulties and hard adjustments. Reports of the work of the past year breathe this same spirit and one feels sure that work has been accomplished which will endure and that the coming year will see more fruit. "Ye have not chosen me, but I have chosen you, and ordained you that ye should go and bring forth fruit, and that your fruit should remain."

Ajmer District reports definite progress and encouraging work done especially in the village and day schools. The self-supporting churches are also shouldering new burdens and responsibilities.

Sind District workers are not discouraged even if times are hard and obstacles many but are sure they have great cause for gratitude for the help of the God during the year. Day schools have carried on and done good work. The English Church is being revived and showing deep interest in the Bible Study Class which is a new feature of the work there.

The six districts of the Punjab, in whom the only evangelist of the Conference works, while feeling the need of more workers, rejoice in the great opportunities which are all round them. The wives of all the district superintendents are very active in the work of the districts, and give very fine supervision to the work. They give enthusiastic reports of various phases of the work. Dr. Gauhar Masih goes about her district armed with the Gospel message and medicines. Sympathetic and practical, she is everybody's friend and helper, worker and villager alike. Mrs. Revis and Mrs. Ali, each in her district, are enabled through the use of a tonga to visit mohallas and many villages, and give help and inspiration to the Bible women and the women of the villages. Mrs. Daniel, in spite of the care of two small children,
goes all over the district with her husband, meeting the Bible women, helping them, and teaching village groups all over the district. Mrs. Keislar speaks with enthusiasm about the open doors all about her, and of some very interesting work done in city Sunday Schools this year, with the help of the laymen. She has also brought relief to many suffering ones through her medical knowledge.

Summer Schools, Institutes or Retreats have been held in all but one of the districts and have been invaluable in carrying on the work, and equipping the workers mentally and spiritually as well as physically to carry on the work.

Village and Day School work for the Punjab, too has shown progress in some places, though there have been some discouraging features, too. However, we are sure as we have seen the work from time to time that definite results have come and we continue to work assured that here is the key to much strength in the Church of the future.

In all our work we gratefully acknowledge our debt to Him without whose guidance and help all work is failure. We look to Him for an outpouring of His Spirit that shall revive and build up His Church in this conference and make it a growing, witnessing Church.

Boarding Schools

Ajmer
District .. Avery Girls' School .. Caroline C. Nelson

Lahore
District .. Lucie F. Harrison Girls' School .. Alice Means.

Patiala-Hissar District Nur Niwas Co-Educational School, Formerly Hissar Girls' School .. Ethel M. Palmer

Martha M. Coy.

In spite of distressing financial and other conditions on every hand that would hinder, the boarding schools of the Conference come to the end of the year with encouraging and interesting reports. God has been faithful to His work in these institutions and we can only sing His praise in gratitude.
From Avery Girls’ School in Ajmer which celebrated during the year its thirty-ninth anniversary we hear of community work in the form of varied and helpful evening entertainments in the school hall once a month in which representatives of the community take part. Special interest has been displayed in Girl Guide activities. The School was especially blessed in a spiritual way by coming in touch with the Oxford Group Movement. There was an Institute of Religious Education conducted by Miss Mary F. Carpenter and Miss Piyari Phillips.

In Lucie F. Harrison Girls’ School in Lahore there has been steady growth in enrolment and improvement of building equipment. The hostel has been improved and enlarged and additional much needed class rooms have been added making it possible to take in more children. Accommodations have also been made for a few little boys in the hostel. Every available bit of land has been utilized by the children in the hostel for gardens, making use of waste water for irrigation. They are a happy group of children going about their daily life of study, work and play.

In NurNiwas, Hissar there is cause for rejoicing over the progress made during the five years of its history from a tract of mere jungle to a thriving plant where ten real live boys and forty-two happy energetic girls attend classes, work in the gardens, and play. Many are earning their clothes, school supplies, and pay fees. A time of spiritual refreshing is reported during Passion week. On Easter a number joined the Church. An Epworth League was organized during the year. Bible and sewing classes for adults meet once a week. Six rooms of the new school building have been completed—four class rooms and two work rooms. A profitable cotton crop was raised last year, also wheat. All are trying to make it a real place of light as signified by the name “NurNiwas.”

As we glance back over the year and note the definite blessings of the Father, both material and spiritual, we realize more and more our indebtedness to Him for His unfailing love and guidance which have made these reports of our educational institutions possible.
