V. Memorials to the General Conference from
The West China Mission Conference.

In as much as the wisdom and value of continuous episcopal supervision in China have been fully demonstrated during the past eight years of Bishop Bashford's residence here, and the onerous and everincreasing responsibilities placed upon the two resident Bishops during the last quadrennium have emphasized the imperative need for the location of two Bishops in China, we memorialize the General Conference and most earnestly request that the episcopal supervision of China by Bishops Bashford and Lewis be continued.

We hereby memorialize the General Conference to authorize the West China Mission Conference to become an Annual Conference whenever during the quadrennium the necessary number of full members is reached and it is so voted by two thirds of the members present and voting at a regular session of the Conference.

VI. REPORT OF COMMITTEE ON RESOLUTIONS.
JANUARY 1912.

The tireless devotion of Bishop Bashford to the interests of the kingdom of God in China, his manifest efficiency in the tasks that have confronted him, the great sacrifices which he has so gladly made for the work under his care, have been a constant inspiration to us all. We gladly take this opportunity of expressing our gratitude to him and to Divine Providence for enabling him to continue his work in China.

We desire to express our appreciation of the characteristic kindness of the China Inland Mission in allowing us the use of their hall for the sessions of our Conference.

Inasmuch as the wisdom and value of continuous episcopal supervision in China have been fully demonstrated during the past eight years of Bishop Bashford's residence here, and the onerous and everincreasing responsibilities placed upon the two resident Bishops during the last quadrennium have emphasized the imperative need for the location of two Bishops in China, we memorialize the General Conference and most earnestly request that the episcopal supervision of China by Bishops Bashford and Lewis be continued.

We hereby memorialize the General Conference to authorize the West China Mission Conference to become an annual conference whenever during the next quadrennium the necessary number of full member is reached and it is so voted by two thirds of members present and voting in a regular session of the Conference.

RESOLUTIONS PASSED BY THE WEST CHINA MISSION CONFERENCE

JANUARY 29, 1913.

Resolved that we express to Dr. Spencer Lewis our appreciation of his careful, painstaking work as president of the conference, and for the spiritual messages he has brought to us. Most especially do we wish to express the thanks of the West China Mission to him and to Mrs. Lewis for their unceasing labors of the past two years. We hailed with delight their coming back to us, but their actual presence and work has exceeded even our best hopes, and as they leave us we pray God’s richest blessings on them as they continue their work.

Resolved, that we express our thanks to those who have entertained us so hospitably and day after day have thought only of our comfort. It was a large family that gathered this year, but the kindness and generosity of our Chungking hosts were larger still.

Resolved that we thank the entertainment committee for the pleasant evening, and also that we extend our thanks to Mr. and Mrs. Crawford for the victrola selections which we enjoyed so often.

Resolved, that we express our thanks to the Chinese church members who have so generously entertained the members of this Conference.

Resolved, that we thank Dr. McCartney for the use of the hospital Chapel.

We desire, finally, to thank Mrs. Lewis for her thoughtful kindness in providing bedding for the visiting Chinese.

Respectfully submitted,

Committee

REPORT OF COMMITTEES

Educational Committee.

We believe that the educational policy of the Mission as adopted in the Conference of the last three years is the correct one for our Mission and in our report this year we simply reaffirm what has before been decided upon or recommend measures for carrying out our policy.

We accordingly present the following resolutions:—

1.—In every place where we have an organized church we should aim to have at least a primary day school.

2.—An advance step should be made at this time by opening another Middle School, and we suggest that the place should be Tzechow or Neikiang.

3.—The time has come when we should appoint a superintendent of primary and secondary education to co-ordinate and corelate all our schools and in general to supervise all our schools of this grade.

4.—The preacher in every place where there are day schools established should consider himself responsible for the character and discipline of the school and should exercise such oversight as will guarantee a better organized school.

5.—Our school should make all haste to omit the Chinese Classics in the grades included in the Government regulation, and add to the courses studies adapted to the children in place of the subjects omitted.

6.—During vacations teachers' institutes should be held in order to better instruct the teachers in modern school methods.

7.—We recommend that the course in biblical study should be more connected and less in quantity than at present required and that our representatives on the Union Educational Committee should ask that this subject be taken under consideration at the next meeting.

Committee

Committee on Self-Support.

1. In the general advance in the cost of living it is necessary that the salaries of preachers be increased in order that they do the more effective work.
2. In the year 1912 the amount used for preachers in the West China Mission was about $6,000. After due consideration your committee report that in their judgment this amount should be increased in 1913 to the extent of about $1,500.

3. In order to manage this in the best way, we recommend that a Board for Ministerial Support be organized.

4. That whatever funds for this Ministerial Support may be contributed by missionaries be sent directly to the Board.

5. That whatever funds may be contributed by the churches be sent to the Board once a quarter.

6. That the treasurer transmit the contributions for salaries to the preachers once a quarter.

7. In addition to the appointment of the treasurer there shall be appointed another representative to visit the various charges and promote the interests of this cause.

8. If the collections are insufficient to meet the full amount of the salaries of preachers each preacher concerned shall submit to a reduction in proportion to the amount of his salary.

9. The various charges shall be differentiated year by year and their rank stated, according to the proportionate amount of their contributions to preachers that they are able to contribute locally.

10. The Annual Conference shall appoint a committee to consult with the finance committee of the Mission as regard what should be the amount of each man's salary, and other matters pertaining to the work of this Board.

Committee on Establishing New Chapels, etc.

1.—Chungking District: Chungking being a large commercial metropolis, it is desirable that more places of worship should be opened than we now have. It is recommended that a place should be purchased and a street chapel opened in the upper city.

2.—Kiangpeh. Liang lu keo, is a large and important center, 30 li from Chungking, and in our opinion should be opened with a chapel and school where we might readily reach a large population without additional workers.
3.—Hochow district: Da ho ba is an important village, as large as many cities, where we have a group of Christians. We recommend that at this place a church and proper schools be built as soon as possible.

4.—Tzechow District: Neigiang, is midway between Chung-king and Chengtu, and on the great road; here we have both a good church and school buildings, but there is no parsonage. We recommend that this be rectified by the building, at an early date, of a parsonage.

5.—We further recommend that at Yanghsien, and Lung-chang property be secured and churches and schools be erected.

6.—Chengtu District: Lungchueni, is the largest village on the great road between Chungking and Chengtu. The chapel we have now rented is too small, and there is no school, we therefore recommend that both chapel and school be provided at this important center.

7.—Chengtu is the metropolis of Szechwan, a place seen by all. At this time we are glad to note that the membership is increasing, and the church is literally crowded: We recommend that the present church be replaced by one of sufficient capacity to accommodate the attendance, and of sufficient architectural beauty to demand the respect of visitors and members.

8.—The parsonage at Chengtu is decaying, and it is desirable that this be built along with the church. It would be desirable to also build or provide a Methodist Hostel, where visitors to the capital could be entertained to our mutual profit.

9.—We finally recommend that our local members take advantage of this opportunity, contribute, as the Lord hath blessed them, to building these churches.

REPORTS OF WORK

Chengtu District and Chengtu College.

JOSEPH BEECH.

Although my appointments were to work on the Chengtu district and in connection with Chengtu College, I have spent most of the time in Shanghai or between there and here because the Consular authorities insisted that I must not return with my family to Szechuen.

The work of the district has been largely done by Rev. W. E. Manly and Rev. Mr. Yang, the school work has been looked after by Mr. Ho, and it falls to them to report it. On my return I found it impossible to do more than make a quick trip over the district and hold the Fourth Quarterly Conferences. At the college there was no work pressing except to plan for the resumption of work for next year, as the revolution had compelled us to close the college.

It was a great comfort to me to find that the work on the district had not materially suffered from the revolution or the absence of the missionaries, in fact there had been a slight gain. In 1910 we had 280 members and 172 probationers, now we have 320 members and 210 probationers! There are a total of 404 students in schools of all grades, and the total contributions for all purposes is $896. It is hardly necessary to make any comparison of the work in different places, but I ought to mention the fact that at Chengtu our preachers and members took the initiative in organizing a school for orphans which has won such a measure of approval from the authorities that public lands have been given for the school and our people placed in charge of the work though in large part it is supported by non-Christians. Daily worship is being held and the school is conducted very much like one of our own Christian schools.

It was a sad moment for me when I had to leave Chengtu for I feared that our leaving at such a time would mean the scattering of the Church and the undoing of many years work. That my fears have not been realized is due largely to the character of the native leaders we have been preparing in years gone by. This is the finest test that could have come to them and the answer to the critics of missions that we have long wished for. The ability to stand alone, and not only stand, but go forward when the missionaries deserted them, has been demonstrated and a promise has been given of what the Church in these lands will do when the time comes they must bear the responsibility that has been ours.
Report of George B. Neumann

During the past year, I have put considerable time on the work as treasurer of the mission. For three months in the earlier part of the year, at Bishop Bashford's request, I worked in the famine field. It was a great joy to be able to help save the lives of these people who faced death from starvation, and especially to aid in the work of prevention.

Since returning to Szechwan, I have continued my work as treasurer of the West China Union University and also taught in the Union Middle School.

Report of Spencer Lewis

Superintendent of the Chungking District and temporarily in charge of the Hochow and part of the Suining Districts.

I am thankful that God has permitted me to do his work in Szechuan for the past two years. If he has used me to promote the salvation of men all the glory is due to him. When I reflect on duties left undone and opportunities not fully improved I feel sorry and ashamed.

Two years ago in Peking Mrs. Lewis and I both felt divinely guided to return to Szechuan, and now we are about to go back again for the translation of the Scriptures. Because for two years we have had no Annual Conference in the West I am now reporting two years work. During the first year I was in charge of the Chungking district only, but this year, because of the absence of foreign workers, I have also been in charge of the Hochow and a part of the Suining districts.

I arrived in Chungking last year on the last day of March and travelled during the year between five and six thousand li. This year I have travelled about ten thousand li, and would have travelled more if those in authority had not hindered. But for the assistance of Chinese fellow workers it would have been impossible to attend to the work in every place.

As it is difficult to describe the work in detail, it must suffice to give a general view. With one or two exceptions I have visited all the circuits each quarter. Two joint conferences of the Chungking and Hochow districts have been held, and the Suining district conference has been held twice. Last year a Bible convention was held in Pisan, and this year one for the Chungking district at Kiangpeh, also a joint one for the Hochow and Suining district at Tahoba. In my opinion these Bible conventions are of great value to the Church.
Both at the Bible conventions and at the district conferences special revival services were held, which have been of much help to many. Speaking generally, the cold and backslidden were more numerous than the zealous and spiritual. Without a spiritual awakening, with persevering earnest prayer and drawing nigh unto God, how could God's will be perfectly done in our midst?

It is difficult in short space to give an account of each circuit. There are abandoned circuits and there are places with buildings and no believers. Again there are places with members and probationers who are such in name only. The Pehschiyi circuit, because it was difficult to have a quarterly conference, has been joined for administration to the South Pisan circuit. The few members and probationers at Fu Chi Ho have been included in the Pisan circuit. Quite recently a preaching place has again been opened at Fu Chi Ho and there are signs of reviving. The Hsinlung circuit is in ruins and the remaining members have been included in the Jin Kwan Chang circuit. This year a place for preaching and a school has been opened at Tuto and inquirers and believers are many. The Linsui circuit has made advance. The buildings at Feng Ho Chang on this circuit, were falling down and have been largely rebuilt, at a cost of $110. The Kiangpeh circuit, because of many who were not real, has declined in membership. The Yuinchwan circuit, for the same reason, although a place has been opened at Yiu Ting Pu and Ban Chiao has had an increase of believers, has had a nett decline in membership. On the whole district the number of members has increased and the number of probationers decreased, with a small nett gain.

We are more careful in receiving members and probationers than formerly. At present sincere inquirers who have put away idolatry are numerous, but many of them are illiterate, with small knowledge of the truth. We ought constantly, to the extent of our ability, to help and stimulate all believers to assiduously study the Scriptures. If they are rooted in the Scriptures they will flourish in the temple of our God. At present the Church is in a better condition. Those who are not true worshippers are fewer, giving hope that in the coming year the in-gathering will be large. Formerly some of the preachers were discouraged, but now they have taken heart. May God pour out the Holy Spirit upon all!

Property has been bought at Siertung Chiao on the Hochow district. On the Suining district, Tsi Tung Chen has become Tung Ngan hsien. At that place materials are heaped up, but there is no money with which to build. The rented buildings at Nan Chiang Ho are falling down and there is no money with which to rent another place.
At the present time, while China is attaching so much importance to education, mission schools for both sexes must not fail of due attention. Last year there were eleven boys day schools on the Chungking district. This year we began with nineteen and closed with eighteen. There is also improvement in the character of the work done. Nearly a score of boys from these schools are recommended for entrance into the Chungking High School.

Aside from the girls studying in boys schools there have been three girls schools outside of Chungking, viz., in Yuinchwan, Pisan and Pehshiyi.

We ought to seek for improvement yearly in the character of the teaching and work done, and we ought also to seek for better teachers, as these things have an important bearing upon the prosperity and progress of the Church. At present, while people are generally friendly to the Church and willing to listen to the gospel, yet we are not having many accessions. Why is this? Is it because we do not know how to win men, or is it lack of zeal, or because we lack love for men's souls? In many places students from the government schools are willing to attend our services. We ought to make use of this opportunity to win them for Christ. We must be constant in prayer, give much study to the Scriptures, seek the constant presence of the Holy Spirit, and in preaching put emphasis on things spiritual. God is waiting till we are ready for him to fill us with the Holy Spirit.

**Chungking High School.**

Report for 1911 and 1912 of C. B. RAPE.

Although I have been in charge of the school for two years, this is the first opportunity that I have had to present a report to the Conference. During the year 1911 the work was very much interrupted on account of the revolution, but I am glad to say that ours was one of the few schools that did not have to be closed and that we were able to finish the years work and graduate a class of six.

In response to the call of the American Consul we went down to Shanghai in December 1911 and were absent during the first term of 1912. Again, however, the school was not closed. Rev. W. E. Manly opened the school, strengthened the Chinese teaching staff, spent two weeks in getting the work started and then left the institution in charge of the native teachers. He returned at the close of the term and presided at the examinations. Mrs. Spencer Lewis, although very busy with other work, taught two classes throughout the half year. I wish here to
express my appreciation of the services of Mr. Manly and Mrs. Lewis and of the way in which the Chinese teachers carried on the work during my absence.

On my return last August it was decided that the Canadian Methodist Mission and ourselves should unite in Middle School work. Accordingly Mr. and Mrs. G. G. Harris of the Canadian Methodist Mission were appointed to work in the school. They seem especially fitted for educational work, are most congenial and we sincerely hope that they may be reappointed to the school. Mr. Harris has taken his share of the responsibility of managing the school and in teaching and Mrs. Harris has spent much time and pains in teaching both vocal and instrumental music.

After a half year's experience in running a union school we are convinced that we can do more efficient work and do it more economically than in running two separate institutions. Union, however, brings problems, needs and difficulties. We find our present building altogether too small for our needs. We have had 104 teachers and boys crowded into a building that was built to accommodate not more than 70 and have had to turn away worthy boys because we had no room for them. In order to take care of next year's expected increase in the number of students, we are now remodeling the gymnasium so that it may be used as a dormitory, building a new kitchen and making other improvements. We will thus be able to add about forty new students next term. Not a cent has been received for these improvements and we have found the financial burden very heavy. The remodeled gymnasium, however, cannot be used permanently as a dormitory and it will be necessary for us to have new buildings. Looking into the future we hope to have the following buildings: a recitation hall provided with laboratories, assembly room and class rooms, a separate dormitory, a chapel and houses for the Chinese teachers. This will mean a big outlay of money, but we must have them and something must be done at once towards securing these new buildings if we are to measure up to our opportunities. If the union continues only part of the burden will fall upon us and we have faith enough to believe that the friends of the institution will come to its aid. More land must be secured, but we are already negotiating for this. Our Canadian friends have money in hand for the purchase of land and we hope to add about ten acres to our present campus.

Since the revolution our school seems to have a better reputation than ever before. The attendance for the last term was 73, all that we could possibly admit. We are glad to say
that of this number 39 or over 53 % paid full tuition and board and 19 part tuition and board. Fifteen boys were wholly supported by the Mission.

We realize that in all Christian Mission work the chief aim should be evangelistic. We try to surround the boys with the best of religious influences and teachings and to lead them gradually by free choice to become Christians. Seventy-nine percent of our present student body are either full members of the church or probationers. During the last term eleven were added to the list of full members and seven to the list of probationers. In accordance with a plan drawn up by Dr. Spencer Lewis and accepted by local committees of both Missions, the boys next year will hold their church membership in their respective churches in Chungking, but union religious services, including baptismal and communion services, will be held regularly at the school and members of both Mission will be called upon to help in these services. The management of all school services will be in the hands of a committee appointed by the student body.

On the same campus we have a Boys Day School which has had an attendance of 47, twenty of whom were boarders.

In closing let me say that in March while I was in Shanghai a call came to go into the famine field and that in company with Hsiao Yuin Hsiang and Den San Si, I went into northern Kiangsu Province to help in the work of relief. We were very glad to spend two months in helping to save those who were starving and in working to prevent famines in the future.

Medical Report.

J. H. McCartney, M. D.

We thank our heavenly father for the most successful year in the history of the work. For the first three months of the year we were single handed in the work, after which we were joined by Dr. Irwin who has shown himself both congenial and efficient as a co-worker. Since his arrival our labors have been materially lightened.

All departments of the work have shared in the general prosperity of the year. Soon after the Revolution opened our banker failed to honor checks and financial difficulties stared us in the face, but we are thankful to report that before the close of the year we had a credit balance to a new account of over $1000 Mex. which was materially added to during the year, which enables us to close the year with over $4000 Mex. balance.

We have given as much time as possible to the evangelistic work, and are pleased to report several baptisms during the
year. A very large number expressed a desire to become Christians when a direct appeal was made to them, but we shall never know how many remain faithful, as they have come from widely separate districts.

We had an increase of nearly 50% over the past year, in in-patients, and over 8000 more of an increase in out-patients, due to closing of the Women's hospital and to the new ideas which have taken hold of the Chinese. Since last conference the electric light and water plant has been successfully launched and the light has been on for 18 months, while the water has been coming up from the river for over a year.

Report of H.W. Irwin, M.D.

After conference of last year and at Bishop Bashford's direction, I returned from Shanghai to Wuhu, where I had been previously, and continued to assist Dr. Houghton in the work of our Methodist hospital at that place. When, later, Dr. Houghton left Wuhu to take up work in the Harvard Medical School it was my pleasure for six weeks to have entire charge of the Wuhu Hospital.

I had promised the Bishop to come to West China at the earliest opportunity, so I joined the first party to proceed up river. This was not without its difficulties, either, for being new to the journey and the only one of our mission in that party, I was not altogether welcome. Then on arriving in Ichang shortly after the death of Mr. Hicks, I was soon discovered by the acting American Consul, and was nearly obliged to sign my life away before he let me go in peace; not that he considered the trip especially dangerous but, acting under general directions of superiors in Peking who thought it might be.

Many false rumors at the rate of about two a day, threw us in despair or raised our hopes of departure alternately. Finally we left Ichang and enjoyed a peaceable and on the whole delightful trip up the great river, arriving in Chungking on the ninth of May.

Almost at once I entered upon hospital work with Dr. McCartney, but reserving a definite period every day for study. During the hot summer months, Dr. McCartney and I took week and week about at the bungalow on the hills and each of us found the plan very acceptable insasmuch as it enabled us to keep the hospital and clinic work going and at the same time to obtain some respite from the heat of the city. During this time I was able to take some of my examinations but down-river tones proved difficult to drop.
In September it became necessary for Dr. McCartney to go down to Shanghai on business and to receive our respective wives and escort them up river. Then for six weeks the whole of the work devolved upon me and for the main part it came easily after my experience down river. After their return in October, typhoid fever stopped me for a time but now I have resumed regular work, Dr. McCartney taking the surgical and I the medical work of the Chungking Mens' Hospital.

Hochow District.

B. F. Lawrence, District Superintendent.

Upon our return to West China last fall we found the condition of the church very satisfactory. We found everything much as before and it seemed a dream that we had been away a whole year. We are indebted to Dr. Spencer Lewis for the careful and efficient way in which he cared for our work in our absence. The outlook is distinctly encouraging.

Christmas day in Hochow was especially interesting. In stead of the usual decorations it was decided to hold a service for the poor of the city. Ten dollars was raised for this purpose. Tickets were printed bearing the words, "Christmas Day, Good Will to Men," and distributed among the poor. The service was announced for Christmas afternoon, and long before the hour the crowd began to gather. Admission was by ticket only. The halt, the lame, the blind, the aged, were our guests. They were told of the birth of Jesus and its message of Joy. At the end of the service the admission tickets were exchanged for meal tickets. Each person was given tickets for three bowls of food. The result was quite gratifying, and we hope it may become a fixed custom of the Hochow church.

The Memorial home in Hochow, in memory of Mrs. Lawrence, is nearing completion. Thus far the house has been built largely on faith and we trust that the funds needed will soon be found.

Hochow district is the smallest district in our West China Mission and the work is yet only in its early stages, but shows great promise for the future.

Tzechow District.

W. E. Manly, District Superintendent.

The problems that I have had to deal with during the past year have been the Church and Schools in two and one half districts for most of the time, and the Chungking High School for half the time.
As to the latter, we decided at the beginning of the year to put out an advertisement of a regular program, to begin on time and continue as best we could. The school had to be conducted without the aid of a foreign missionary, save that Dr. Lewis when at home was near by for consultation, and that Mrs. Lewis was able to teach English twice a week. I could give only twenty days during the six months. It was most gratifying to prove the loyalty and ability of the Chinese management. And in the general interruption which all schools suffered throughout the entire Province it is good to report a most prosperous half year. Nevertheless it was a matter for sincere thankfulness to hear from Bro. Rape that he purposed to be here in time to open in the autumn, "even if he had to walk."

The general prosperity of our schools has been the marked feature of the year. Where we went ahead regularly even though it seemed at considerable risk of failure, we have made a success in almost every instance. And I think too that this example was of some use in helping the Government schools to get into running order again. There have been seventeen day schools, one high school, and one Bible school.

This year has seen the building of a good plant at Yuin Tsang. It consists of a made-over parsonage, and new buildings for guest-hall, church, a boys' school and a girls' school. The buildings are of brick with stone paving and good roofs, and veranda entrances. It was surprising how little they cost, only $700 all told.

It is a reason for thankfulness to believe that the end of the decrease in membership has come, and that next year should show an increase. The recent test has shown that Christianity is one of the most powerful forces in the building of the new China. This is one of the distinct gains of the year.

As to specific work done, I have been out itinerating eight months of the year, not counting the time spent in the Chungking High school, and have traveled 150 stages. Shall be very thankful to stay nearer home more of the time during this coming year.
