REPORT

OF THE

MEDICAL MISSIONARY SOCIETY'S HOSPITAL

IN CANTON, CHINA,

FOR THE YEAR 1878

BY

FLEMMING CARROW M.D.,
SURGEON IN CHARGE.

HONGKONG:
Printed by DE SOUZA & Co.,
1879.
REPORT
OF THE
Medical Missionary Society's Hospital
IN CANTON
FOR THE YEAR 1878
BY
Flemming Sarrow, M.D.

The Work of the Hospital has been continued without interruption; the out-patients being received on Mondays and Fridays, as usual.

The table gives the aggregate of the attendance on prescribing days, or, more properly, dispensing days.

OUT-PATIENTS FOR 1878.

Total number of patients treated at Hospital and Dispensaries during 1878, 40,251.

In the list of out-patients, the in-patients, are included.

The following list gives the number of operations performed at the Hospital during the year.

- Lithotomy: 59
- Lithotrity: 4
- Cataract: 71
- Couching—Soft Cataract: 6
- Iredectomy: 17
- Extraction of Urethral Calculi: 7
- Entropium: 313
- Pterygium: 10
- Staphyloma: 1
- Hare Lip: 6
- Excision of Tumors, (small): 25
  - (large): 3
  - (encysted): 11
  - (cancerous): 6

The following diseases have been presented for treatment
at the Hospital during the year both by in and out-patients:

Diseases of the Skin.

Scabies Gelatio Furunculus
Leprosy Kelis Sudamina
Elephantiasis Erythema Puritus
Rupia Vaccinia Clavus
Erysipelas Prurigo Sycosis
Ambustio Eczema Anthrax
Lupus Purpura Impetigo
Lichen Herpes Herpes Zoster
Variola Verruca
Urticaria

Zymotic Diseases.

Intermittent Fever Typhoid Fever Dysentery.
Remittent Fever Diarrhoea
### Diseases of the Urinary System.
- Nephritis
- Haematuria
- Diabetes
- Æbumenuria

### Diseases of the Generative System.
- Stricture
- Gonorrhea
- Syphilis (Primary)
- Bubo
- Syphilis (Secondary)
- Involuntary Seminal Emissions
- Syphilis (Tertiary)
- Mucus Pustules
- Syphilitic Vegetations.

### Diseases of the Respiratory System.
- Phthisis
- Laryngitis
- Pleuritis
- Nervous Aphasis
- Pneumonitis
- Emphysema of the Lungs
- Bronchitis
- Pulmonary Hemorrhage
- Ædema of the Glottis

### Diseases of the Circulatory System.
- Hypetrophy of the Heart
- Aneurism
- Atrophy of the Heart
- Endocarditis
- Fatty degeneration of the Heart
- Chalky deposits on the valves of the Heart.
- Pericarditis
- Varicose Veins.

### Diseases of the Nervous System.
- Congestion of the Brain
- Neuritis
- Cerebro Meningitis
- Neuralgia
- Paralysis
- Softening of the Brain
- Hemiplegia
- Vertigo
- Paraplegia
- Epilepsy
- Apoplexy
- Catelepsy
- Glosso Labial Paralysis
- Tétanos.

### Diseases of the Digestive System.
- Gastritis
- Gastrorrhagia
- Enteritis
- Passage of Gall Stone
- Carcinoma of Stomach
- Constipation
- Obstruction from Impacted Feces
- Cholera
- Parotiditis
- Ascaris Lumbrioidees
- Induration and Enlargement of Spleen
- Jaundice
- Æbun
- Hypatitc.
- Dyspepsia
There has been but one operation for ovarian Tumor during the year—which resulted in death. We could attribute this only to the unfavorable condition of the Hospital wards, which are too large and cannot be kept at an equable temperature. Other cases applied for operation, but we were only willing to perform Tapping and hence give only temporary relief. We hope that a new ward may be so constructed as to offer the best conditions for these important operations.

The Opium-Smokers-Ward has been kept open during the year and many have been cured of the habit.

A daily religious service is held in the Hospital Chapel conducted by a Native Evangelist—who lectures to the patients on Religious subjects and distributes Books and Tracts among them. The wards are but rarely visited by Missionaries (with one exception, a lady) and we regret this, because the Hospital offers a vast and wide field for Missionary labor. We hope, however, that the Missionaries of the different Societies will visit the wards more frequently in the future.

The Medical class is instructed as usual and this branch of the Society's working is accomplishing all that it was designed it should.

We are glad to note that since the Meeting of the Society in January last, Dr. J. G. Kerr has arrived in China and assumed charge of the Hospital. This institution which has been conducted by him so successfully in the past, we hope will still grow in importance and extent, and that Dr. Kerr will meet with the same kind help from the Society which it has been the good fortune of the retiring surgeon to receive.

This month the Rev. Mr. Kerr arrived regularly to conduct the services on Sunday.

Audited and found correct,

W. CARTWRIGHT.
The Dispensaries of the Hospital give returns as follows:

FU-MUN:
- Total number of patients: 1,819
- Operations: 85

TUNG-KUN:
- Total number of patients: 2,555
- Operations: 25

HAK-KA-TUNG:
- Total number of patients: 800

Chinese Medicine for the above Dispensaries $11.50
MINUTES
OF THE
FORTIETH ANNUAL MEETING
OF THE
MEDICAL MISSIONARY SOCIETY,
IN CHINA.

The Fortieth Annual Meeting of this Society was held in Canton, at the house of Messrs. Olyphant & Co., on Tuesday, January 14th, 1879:

The Meeting was called to order by G. Nye, Esq., Senior Vice-President, who, upon taking the chair, read the notice convening the Members. A motion was then passed to accept the Minutes of the last Meeting as printed, with the following correction by Mr. Sampson, "that on page 18 these words be omitted from the Report of the Standing Committee:—"And further, of the good state of repair in which he now finds the property of the Society."

The account current of the Treasurers was next presented, and, on motion of Mr. Sampson seconded by Mr. Davis, it was accepted.

The receipts and payments therein shewn being as follows:

Receipts.

Balance from previous year .................. $1,571.17
Balance charged in new account .............. 146.30

Total.........................................$1,717.47
Payments.

To Dr. Carrow, for Hospital expenses and Dispensaries ............................................ $1,716.88
To Balance of interest ...............................................  .59

$1,717.47

Note.—The subscriptions during the year, amounting to $899, not being all collected, have not been brought into this account.

This account will be found on page 7 of this pamphlet.

Abstracts from the Surgeon's Report for the Year, (which is now presented in full in this pamphlet,) and Reports of the working of the Society's Dispensaries in Sai-Nam (under the care of Rev. R. H. Graves M.D.,) and in Fu-Mun and Tung-Kun, (under the care of Rev. E. Faber,) were next read: shewing the grand total of persons applying and treated at the Hospital and Dispensaries during 1878 to be 40,251, being about 2,000 above the aggregate of 1877; the lessened numbers at the Hospital, (of about 2,000,) and at Fu-Mun and Tung-Kun, being more than made up by the remarkable gain at Sai-Nam, Shek-Kok, Tsing-Yuen, and contiguous districts, as set forth in Dr. Graves' Report: (which appears at page 15.) Thus exhibiting the effects, on the one hand, of the hostility to Mission work in the Eastern districts, and, on the other, the alacrity of the suffering people of the flooded Northern districts to avail of Missionary aid; in the rendering of which, as we see by Dr. Graves' Report, Mr. assistant Chan has shewn much zeal and faithfulness and at proportionately small pecuniary expenditure.

The Surgeon's account was then presented, (and may be found on page 6), shewing the following items:—

Debit.

For amount due Dr. Carrow in last account .............................................................. $156.88
" Wages, Medicine, Sundries .............................................................  900.00
" Insurance, Repairs, Printing ...........................................................  201.00
" Poor patients—Kitchen account ...........................................................  184.00
" Sai-Nam Dispensary ..............................................................  160.00
" Chinese Medicines .................................................................  141.30

$1,748.18

Balance due the Society..........  90.70

$1,838.88
Credit.

By cash from Messrs. Russell & Co... $ 156.88
" for books sold ... ... 117.00
" from Messrs. Russell & Co... 1,560.00
-------------- $1,833.88

By motion of Mr. Sampson seconded by Dr. Harper the Report was received and the usual number ordered to be printed in English and Chinese.

Mr. Sampson then read the Report of the standing Committee, as follows:

"The services that the Committee have been called upon to render during the past year have been very limited in extent. In May the Surgeon in Charge addressed a letter to us asking for our opinion as to his engaging in general practice among the Foreign Community, and, as to the disposal of the fees for such services. In reply we gave as our opinion that we saw no objection to his engaging in such practice provided his doing so did not interfere with his duties at the Hospital, but that the disposal of the fees for which rested between himself and the Society under whose auspices he came to China. We avail ourselves of the opportunity to lay before the Society the views of a majority of the members of the Committee."

"The constitution of the Society, as printed on page 42 of the Society's Report for the year 1865, provides, that the President, Vice-Presidents, Secretaries, Treasurer and Auditor shall collectively form a Committee of management for performing the business of the Society. Now this portion of the constitution is practically a dead letter, and indeed appears to be a too unwieldy piece of machinery for the purposes required: However, it still forms a part of the constitution and its existence cannot be wholly ignored. The present Committee or their predecessors were originally appointed a Building Committee, and when their functions as such were terminated, by the completion of the present Hospital buildings, it was at the request of Dr. Kerr that the Committee was retained from year to year, not as a Committee of management, but as a ready available body whom Dr. Kerr could consult in cases of doubt or difficulty as to the best means of carrying out the objects of the Society. Indeed, we consider ourselves as a consulting Committee with no power to control the affairs of the Society, except by giving or withholding our support to proposals made by the Physician in charge, or by advising him when asked to do so."
"Under such circumstances your Committee have felt their position anomalous and embarrassing, for they cannot help feeling conscious that the members of the Society may reasonably look upon them as a managing body, while in fact their hands are tied and their lips sealed even when important interests of the Society are at stake. We therefore suggest that the Constitution be so amended as to place the management of the society's affairs in the hands of a really practical working Committee, and with this view we are prepared when the proper time arrives to submit a resolution to your consideration.

On motion of Dr. Happer seconded by Dr. Graves the Report was accepted. Mr. Sampson was then invited by the Chairman to submit the proposition alluded to in the Report of the Committee by motion and offered the following Resolution, seconded by Dr. Graves: that the Regulations of the Society be amended and the second article of the constitution read as follows:

"The officers of this Society consist of a President, Vice-Presidents, a Secretary, a Treasurer and an Auditor of accounts, to be elected annually: that in the absence of the President, the duties of his office be performed by the senior Vice-President, present at the time—that is by the Vice-President whose name has stood longest on the list: that a Committee of management, consisting of the Physician in charge of the Society's Hospital, and four Members or Honorary Members of the Society, to be elected annually, be appointed for performing the business of the Society. That any vacancy occurring between the Annual Meetings be filled by the remaining Members of the Committee—and that the Secretary and Treasurers render every year a Report of the operations of the Society:—Also, that the verbal alterations in the By-Laws necessitated by the amended form of Article 2 of the constitution be made in the By-Laws."

Which was passed by an unanimous vote.

The Committee of Management was then, on motion of Dr. Chalmers seconded by Mr. Gibson, elected, composed of the following gentlemen: Messrs. Sampson, Talbot, Cunningham, Henry, and the Physician in charge of the Hospital.

The estimates for the current year were then asked for and presented as follows:

For current expenses of Hospital and Dispensaries
for 1879 ........................................ $1,300.00
For Sai-Nam Dispensary .................................. 160.00

$1,460.00
whereupon a discussion arose as to the amount of the appro-
priations, in view of the lessened pecuniary resources avail-
able; the actual receipts from the subscriptions during the
year 1878, being but $854, to date, and leaving but about
$50 for collection: and a somewhat general interchange of
opinion upon the question of ways and means for the future
resulted in a motion by Dr. Graves, seconded by Mr. Noyes,
empowering the Committee of management to issue money
orders for current expenses of the Hospital and Dispensaries
in relative proportion to the actual pecuniary resources from
time to time.

The annual election of Officers to the Society was then
proceeded with, and on motion of Mr. Noyes, seconded by
Mr. Masters, resulted as follows:—

President: Thomas R. Collodge, M.D., F. R. S. E.D. (in
England), Senior Vice-President Hon. P. Parker, M.D.R.S.I.
(in United States), Second Vice-President John G. Kerr, M.D.

Vice-Presidents: G. Nye, Esq., Hon. W. Keswick, W.
H. Forbes, Esq., Sir Brooke Robertson, Hon. H. Lowcock,
Hon. P. Rytie, H.J. Dalrymple, Esq., F. R. Talbot, Esq.,
E. Deacon, Esq., G. B. Glover, Esq., T. Sampson, Esq.,
Rev. A. P. Happer, D.D., Rev. J. Chalmers, M.A.L.L.D.,
R. H. Graves, M.D., Wm. von Pustau, T. B. Cunningham, Esq.,
W. Cartwright, Esq., A. Rowe, Esq.

In Europe: Rev. Professor Legge, D.D., LL.D., Richard
von Carlowitz, Esq., Ven. Archdeacon Gray, LL.D.

In United States: S. Wells Williams, LL.D., W. De-
lanq, Esq.

Secretary: Flemming Carrow, M.D.

Treasurers: Messrs. Russell & Co.

Auditor: the Commissioner of Customs, Acting.

Dr. Carrow next presented his resignation as Surgeon
in charge of the Hospital, in which, he thanked the Society
for their support and advice and offered his services to the
Society until some one arrived out to assume the duties he
regretted to give up, but was compelled on account of his
private practice. After reading which the Chairman remarked
in the sense of the following abstract:—That whilst they
could not but admire the ambition evinced by Dr. Carrow to
continue in such a distinguished sphere of usefulness, yet all
must recognize his good sense—in view of the actual cir-
stances—in resigning charge of the Hospital. That it
would be incompatible with the origin, dignity and mission
of the Society that it should be beholden to any individual
for prolonged gratuitous services in that capacity, subject to
the contingency of sudden withdrawal by reason of accident
or ill health; whereby the scope of its usefulness would be
abridged. That it is due to the projectors of the Society and
to the long roll of benevolent men who, from 1835 forward,
have contributed to its founding and support and not least
to the Missionary Society which has for more than twenty
years supported the Surgeons in charge, that we use every
effort and precaution to conserve and expand the beneficent
influences of the institution. And that no doubt these consi-
derations have induced Dr. Carrow to subordinate his ambi-
tion to a comprehensive conception of the welfare of our
great charity.

On motion of Mr. Cunningham seconded by Mr. Sampson
the resignation was accepted and the thanks of the Society
presented to Dr. Carrow for the manner in which he had
conducted the Hospital for the past three years.

Moved by Dr. Chalmers and seconded by Mr. Sampson,
that having learned that Dr. Kerr is on his way to China,
the Committee ask him to take charge of the Hospital on
his arrival—passed.

Mr. Sampson presented the following resolution. That
this Meeting express its deep sorrow at the death of Dr.
Wong, who expired in October last, and its appreciation of
the gratuitous services which he frequently and cheerfully
rendered in the Society's Hospital.

Mr. Cunningham seconded this motion and it was passed
unanimously.

The Meeting was now adjourned and a vote of thanks
presented to the Chairman.

GIDEON NYE,
Chairman.

F. CARROW, M.D.
Secretary.
Report of the Sai-Nam Dispensary

FOR 1878

BY

REV. R. H. GRAVES, M.D.

THE work of the Medical Missionary Society at Sai-Nam and the vicinity during the past year, as during the preceding one, has been under the charge of Mr. Ch'an, who has given me much satisfaction in the way in which he has attended to his duties.

During the summer the streets of Sai-Nam were frequently flooded from the high water and our operations there were necessarily suspended as no patients came to the Dispensary. At this time the river dykes near Shek-Kok on the North River gave way and caused a large tract of country to be inundated. As much sickness resulted owing to insufficiency of food, and a want of proper shelter, I transferred the assistant temporarily from Sai-Nam to the town of Shek-Kok. The results showed the wisdom of the step, for thousands sought relief at the new Dispensary and the places temporarily opened in some of the neighbouring towns. The applicants for relief suffered especially from anemia, malarial fever and rheumatism.

Medicines have been dispensed at Tsing-Yuen city, the towns of Ló-Pan and Tai-T'ong on the North River and Pak-Nai on the West River. Mr. Ch'an has spent ten days of each month at Sai-Nam, the North River towns and Pak-Nai, respectively. In this way many more have availed themselves of the benefits of the Dispensary than heretofore. We have secured permanent premises at Shek-Kok and hope to do the same at Tsing-Yuen.

Religious services have been held in connection with the dispensing of medicines, and at Sheh-Kok especially, many have attended preaching and a number gather together of an evening to read the Bible. Three converts have been baptized during the year, one from the vicinity of Sai-Nam and the others from Shek-Kok.
The whole member who have received medicines during the year is 10,370, or more than three times as many as last year.

The Assistant sends me the following numerical report:

<table>
