The Committee on Biblical Instruction for Women

The committee met at Belfry Cottage, Panhala, October 29th, 1921. Twenty-three members were present.

Reports showed 235 women under instruction, including 12 in Leper Asylum, Ratnagiri, and 33 in Leper Asylum, Miraj.

Christian women in 14 villages around Islampur have had no missionary to teach them.

Fifteen women passed in examinations in the prescribed courses. Two of these—Walubai Appaji and Premabai Samuelrav—were awarded certificates for completing the four year course.

Upon recommendation of the committee, it was decided that the Mission approve the appointment of Miss A. A. Browne as the official correspondent and representative in presenting the woman's work to the Woman's Board at home.

It was decided to postpone action on the recommendation of the committee that the Mission provide one-third representation of women on the Presbyterial Committee to which shall be entrusted the Evangelistic work of the Mission, as recommended by the Saharanpur Conference.

The Census Committee

Last year, owing to the fact that the census returns of one station were incomplete, the committee was unable to make a report. The Mission instructed the committee to report at Mission Meeting, 1921.

The returns wanting last year have been received, but the committee has had the misfortune to lose the tabulated report. Owing to the fact that the Chairman is on furlough, duplicates are not available and a complete report cannot be made without examining all census books. It was decided—

1. That all missionaries excepting those in the Sangli and Islampur fields having census books be urged to tabulate same, if copies of former tabulations are not available, and send same to the committee as soon as possible.
2. That upon completion of the census tables copies of same be sent to all stations, and
3. That the committee be discharged.

Circular Business

The President reported Circular Business as follows:

1. The Mission action loaning Mr. and Mrs. Richardson to Islampur Station for one year was rescinded.
2. Rule 27 was suspended to permit of the audit taking place March 15th, 1921, the necessary adjustments to be made the next fiscal year.
3. A motion advising the return of Miss Frances Unsworth to the field was carried.
4. A partial report of the Committee on the Findings of the Post-War Conference was adopted. (See p. 12, No. 17.)

Committee on the Findings of the Post-War Conference

The report was amended and adopted as follows:

1. That sections 1-4 inclusive be approved
2. That section 5 be amended by substituting "co-operate in organizing" for "to organize"; and in place of "provide" there be substituted "in providing."
3. That section 6 be amended by substituting "help the church" for "lead the Church."
4. That section 7 be amended by adding "to co-operate with the Church in seeking . . ."
5. That sections 8-10 be approved.
6. That section 11 be amended by adding "undoubtedly should be an effective method" after "social service."
7. That section 12 be amended by deleting "It should . . . that."
8. That section 13 be amended by substituting "word" for "work."
9. That sections 14-27 inclusive be approved.
10. That section 28 be amended by adding "medical and other schools as early in the year as possible" after "seminaries."
11. That sections 29-36 be approved.
12. That section 37 be amended to read:

On Findings of Post-War Conference (Contd.)

"After reaching the field the new missionaries should spend their first two years in language study, either in a language school or in their station, as circumstances may dictate. Except in rare cases nothing should be allowed to interfere with the securing of a good working knowledge of the language, and we urge that the requirements concerning this matter in section 28 of the Manual be carefully followed."

Also that section 28 of the Manual be amended as below:

Delete from "Personal teachers will be . . ." etc. (line 11), to end of section and substitute the following: "Every facility should be afforded all missionaries for language study."

13. That section 38 be amended to read:

"That the continued preparation on the first furlough be made possible for younger missionaries, the Board providing necessary financial assistance."

14. That sections 39-48 inclusive be approved.

15. That section 49 be deleted.

16. That sections 50-51 be approved.

17. That sections 52-58 be amended.*

The instructions of the General Assembly call for a "definite sphere of original jurisdiction in field matters on the part of the Missions." Now on any fair interpretation "original jurisdiction" does not mean "authority delegated by the Board." It means that the Missions, as such, are to have certain rights. The Commission has ignored this point in the recommendation as to powers of the Mission and its subsequent definitions. It speaks of the Board as "necessarily" having "full control and direction" of the work, "subject only to such directions as may be given from time to time by the General Assembly"—apparently forgetting that the General Assembly has just directed that the Missions are to have "original jurisdiction in field matters."

We therefore recommend as a substitute for actions already passed on this subject the following:

1. That the Mission approve in general the statement of the Japan Mission to the Chosen Commission, which is as follows:

"As to section 2 of the Report of the Commission, the Mission regrets that a deliverance of this nature (apparently framed in the atmosphere of polemic discussion as regards the Board and a particular Mission), should be made at the present time.

"The proper authority of the Board, as the agent of the General Assembly, in the conduct of the foreign Mission work of the Church is nowhere seriously questioned. What the Missions are seeking at present is a clearer recognition on the part of the Board and the Assembly of the rights and powers of Missions in the administration of the work on the field.

"The Organized Mission is a vital factor in the carrying out of the great Commission of our Lord. Wherever it is established, certain inherent rights and powers exist, which ought to be recognized but which have never been as clearly defined as they should be. The General Assembly, evidently, recognized the situation when it directed your Commission to inquire carefully into the subject of the whole problem of democratic self-government in the field force of missionaries, its proper sphere in accord with the principles of Presbyterianism, sound business and spiritual efficiency, and to frame definitions and regulations on the basis of a definite sphere of original jurisdiction in field matters on the part of the Mission.

"Your Commission, we venture to say, in its eagerness to safeguard the authority of the Board, in this second section of the Report, has

* Adopted by Circular, before Mission Meeting.

On Findings of Post-War Conference (Contd.)

practically overlooked the Organized Mission and its inherent right and powers, in the statement of relation between the Board and the missionary force on the field. The Board and Mission are both vitally necessary to the missionary propaganda, but their spheres are distinct. We cannot accept the statement that the Board necessarily has full control and direction of the whole foreign missionary work of the Church, and we affirm the Organized Mission's inherent rights and powers in matters of field administration as implied in the Assembly's expression 'original jurisdiction in field matters.'

"The intended compliment to the missionaries as 'representatives of the whole church,' 'held in honor for their work's sake' does not atone for the omission of a clear statement of the Mission's rights and powers, and of its vital importance to the work abroad. And while we cheerfully recognize the priority of the Board's function in general administration, we believe far more good will be gained if, in your statement to the Assembly, you emphasize hearty co-operative relations between the Missions and the Board rather than stress the superiority and authority of one over the other."

Upon reconsideration of the action of the Mission the following was adopted :* "While the Mission has approved in general the statement of the Japan Mission on the Chosen Commission, this approval does not extend to the claim that the rights and powers of the Mission are inherent."

2. That the Mission approve the changes proposed by the Executive Committee of the Chosen Mission and submitted to the Chosen Mission for approval, as follows:

"In view of the request of the Chosen Commission for constructive criticism of Part II of their report to the General Assembly, we desire to express our appreciation of this opportunity given the Missions, and would respectfully submit the following suggestions:

"In accordance with the Assembly's instructions that regulations should be 'on the basis of a definite sphere of original jurisdiction in field matters on the part of the Missions and such review and control on the part of the Board as the Assembly may determine,' we propose

"(1) That as a preamble to the proposed definitions of Administration and Organization (Report, page 3) the following sentence be substituted for paragraph 1 (page 3, beginning with line 18):

"We recommend that the following interpretations and definitions of relations between the Board and Missions be adopted by the General Assembly and placed on the records of the Assembly and printed in the Board's Manual.

"(2) That Section A, The Mission. How Constituted (page 3), be adopted as it stands, *viz.*:

"In general, a Mission consists of all foreign Missionaries under appointment by the Board within specified territorial limits. No missionary shall have a right to vote until after at least one year's service in connection with the Mission, and until he or she shall have passed the language examinations appointed for the first year (see No. 28) and shall have been assigned to definite work.

"The married women missionaries are subject to the provisions of paragraphs 28 and 39 of the Manual.

"(3) That the following be substitued for B, Powers of the Mission (from line 1, page 4, as far as and including the first two lines on page 5):

"The Mission has general care and supervision of all work within its limits. In all field matters the Mission shall have the rights of initiative and original jurisdiction. All questions of policy, method and expenditure are subject to its decision. It assigns and in general supervises the work

* Adopted at Mission Meeting.

On Findings of Post-War Conference (Contd)

of individual missionaries. The Board shall have full power of review and control (veto) over all Mission decisions. In field matters the Board shall also have the right of initiative in conference and agreement with the Mission.

" Mission minorities and individual missionaries shall have the right of appeal to the Board in matters of their concern.

" If differences arise between the Board and the Mission which cannot be satisfactorily adjusted by conference, the question at issue may be brought before the Executive Commission of the General Assembly by either the Board or the Mission, with the right of appeal to the General Assembly itself if the decision of the Executive Commission is unsatisfactory to either party

" (4) That consistently with the above, the last sentence in paragraph 3 (beginning line 24, page 5) and the last two sentences in paragraph 4 (beginning line 34, page 5) of Section II be omitted. (These sentences begin, 'Inasmuch as Board,' etc., 'The General Assembly reaffirms,' etc., 'If any differences arise,' etc.)."

18. That sections 59-61 inclusive be approved.

19. That section 62 be amended to read : " a representative Executive Committee to see that actions of the Mission are carried into effect and to conduct necessary business between Mission Meetings."

20. That section 68 be amended to read " properly counterchecked.

"(1) By considerations of urgency.

"(2) By period elections so arranged as to assure continuity.

"(3) By prompt publicity of all actions.

"(4) By provisions for protest within definite limits requiring reconsideration."

"(5) By provision for review of the action of the committee by the Mission.

21. That sections 69-75 inclusive be approved.

22. That section 76 be deleted.

24. That sections 78-79 be approved.

25. That section 80 be amended by adding the words " and General Assembly " to the section.

29. That section 90 be not approved.

30. That sections 91-94 be approved.

31. That section 95 be amended so as to read :

" That each Mission should make careful provisions for appropriations for repairs on all properties, so that these be adequate to keep all buildings in satisfactory condition ; and that appropriations made a given station be nontransferable, and if unused to be retained in a repairs account of the Mission ; the Property Committee to have general supervision of all repairs and estimates for the same."

32. That section 96 be amended thus : " by removing any limit for repairs or alterations excepting where additional appropriations are required from the Board."

33. That section 97 be amended by adding "where insurance is needed."

34. That no action be taken on section 98.

35. That sections 99-100 be approved.

36. That no actions be taken on section 101.

37. That section 102 be approved.

38. That section 103 be amended by adding : " That in case the length of period of service should be reduced the number of trips to or from America for children should be increased."

On Findings of Post-War Conference (Contd.)

39. That section 104 be amended by substituting "omitted" for "proportionately increased."

41. That section 106 be amended by adding: "During the fourth quarter of the fiscal year this fund or any remaining part of it is to be distributed in regular work."

42. That section 107 be amended by deleting "and one-half dental expenses," and inserting "and" between "medical" and "surgical."

That section 108 be approved.

(*a*) The following action of the Mission, endorsed by the India Council (see W.I. Minutes, 1919, p. 35, and India Council Minutes, 1919, p. 13).

"Inasmuch as the climatic conditions in Western India are different from those in North India, we recommend to the Board that the arrangement for furloughs be made entirely separate from these in the North India and Panjab Missions, *viz.*

"That the time for leaving the field on regular furlough be about the first of February following the completion of term of service, and for leaving the U.S.A. about the first of April, the term of service to be six years with twelve months at home. . . .

(*b*) A furlough of six months at home after 5½ years of service available for any of the Indian missionaries who desire to take it with the approval of their Mission.

(*c*) That missionaries may take furlough after the first term of 5½ years' service for 9 months at home for study on recommendation of the Mission; travelling expenses both ways to be met by the Board.

44. That section 110 be amended to read: "That the Board be asked to provide adequately for exceptional field health changes, to be determined by the Mission or Council, and that in India the present provision for summer changes be maintained.

45. That sections 111-126 be approved.

46. That no actions be taken on section 127.

51. That sections 164-172 be approved.

52. That no action be taken on section 173.

Educational Committee

It was decided that—

1. *College Students.*—Kolhapur Station be given permission to pay the college expenses of Yeshvant Pandit and R. C. Chintamani, if funds are available, it being understood that the Mission rules regarding contract are observed with the inclusion of an agreement to serve the Mission at Government scale of pay.

2. *Conscience Clause.*—It is the conviction of the Mission that the Mission would not be justified in carrying on educational work in India if deprived of the right to give Biblical and Christian teaching. While in the single-school areas special regulations should be made to meet the conscientious convictions of patrons, who can send their children to no other school,

Educational Committee (Contd.)

the Mission holds that the right to require attendance at Bible classes and chapel exercises in all other areas cannot be surrendered.

3. *Hindu Holidays.*—That the matter of observance of Hindu holidays in our schools be referred to the Educational Committee to bring in a recommendation at the next Annual Meeting.

4. That the *Inspector's report* be approved as follows :—

(1) Of the 752 girls in the vernacular schools, only 295 are in village schools, 457 being in the station and city schools. Of these 295 in the village schools, 116 are Christians, of whom all but 11 are in the Binyetta.

(2) There is an increased attendance in the last year of 145, in spite of the fact that the attendance in the Islampur schools dropped from 480 to 148, owing to the closing of several schools. Increased attendance at Vita, with the opening of a few new schools, accounts for the increased attendance.

(3) For the first time, a report is made on Upper Primary schools. The Middle schools at Sangli and Ratnagiri were changed to the Upper Primary course, and the first standard of the Upper Primary has been opened in the Kodoli school and the Mang Vada school at Miraj. In all there are 31 boys and 17 girls in the Upper Primary standards.

(4) The High school attendance has dropped from 137 to 125.

(5) The attendance in all schools is 3,062 as compared with 2,895 last year, a gain of 167.

(6) The attendance by religion and caste, as compared with last year, is as follows :

	1920	1921
Christians	1,077	1,104 of whom 22 are Roman Catholic
Hindus	1,729	1,853
Lingaits	11	12
Jains	6	6
Mussulmans	72	84

Of the Hindus there are representatives of 26 castes in attendance.

(1) A glance at the table of statistics for the five years will show an encouraging increase in the attendance in the Primary schools, with a rather discouraging decrease in the attendance in the Middle and High schools of 66. The closing of the two High school classes in the Sangli school and a small attendance in the Esther Patton School accounts for the decrease in the High school attendance.

(2) The statistics by religion and caste are not available for 1917, but in four years the attendance of Christians has increased 307, or nearly 39 per cent., the Mahar 50 per cent., the Mang 60 per cent., the Chambar 74 per cent., the Brahman 5 per cent., Mussulmans decreased 6 per cent., and other Hindus have not quite held their own.

(3) The number of Primary schools has increased from 71 to 91, a gain of 28 per cent., and the number of Middle and High schools has decreased from 4 to 3.

(4) The number of Primary school teachers has increased 26 per cent. The number of non-Christian teachers in Primary schools has increased from 11 to 17. There were 23 non-Christian teachers in all the schools in 1917. There are 39 in 1921.

(5) There were 23 trained teachers in 1917. There are 20 in 1921.

II. Conclusions from a study of this report.

Educational Committee (Contd.)

(1) Since there are only 116 Christian girls in the village schools, nearly all of these in the infant class, and 375 boys in the village schools, with more than 300 in the infant class, attention should be given :

(*a*) To an effort to get the Christian girls in the village into school.

(*b*) To overcoming Binyetta stagnation.

(2) A second conclusion is that we are not successfully carrying out the Board's wish that the staff of non-Christian teachers should be decreased.

(3) A third conclusion is that we are making no progress in the matter of regularly trained teachers. The number has decreased three in the five years.

(4) In the five years that the Panhala training class has been in operation, only 26 teachers have completed the four years' course. Forty-seven of the teachers in the Primary schools have not yet attended the class. As this class is along the line of the report of the Commission on Village Education, and it seems to be about the only class of its kind, not only in the Marathi-speaking area but in all India, it would seem reasonable to expect that it should have the hearty support of all the stations.

III. The village school work, especially the work of educating the Christian community in the mass movement area, is so important that it calls for the best trained and best qualified man obtainable for inspection, summer training, and follow-up-work. The Board should be urged to appoint such a man for this work at once, so that he may get the language and be ready to take over this work as soon as possible.

IV. The summer training school and institute and school inspection, depend for real success and efficiency upon being under one head.
