Inquiry, No. 1, (b). "Be very cautious about taking on any national workers who are not prepared spiritually to be servants of Christ; people should never be employed in Christian service primarily to earn a living; emphasis should be placed on volunteer service and responsibility for evangelizing the area be put on volunteer workers and the Indian Church."

2. Inquiry No. 2 p. 12 Dr. Scott's letter:—"Buy less property in more strategic positions with a view of bringing missionaries and future institutions into closer contact with the people, due care being taken to safeguard the health of missionaries and the efficiency of the work. With the improvement of sanitary conditions in general, such over-strict precautions as were observed in past years are not so absolutely necessary to-day. Precautions should be taken against building up isolated compounds and Christian wards. Missionaries should be ready to take more risks within reason and common-sense. Buildings should be much less expensive, decent Indian houses used where available."

3. Inquiry No. 3 p. 12 Dr. Scott's letter:—"The Mission advises selling as much property as is not used or likely to be used in the near future. Rent what is not used at present but may be required in the near future. Church buildings should be handed over to the Indian Church as soon as the United Church of India, North, is legally competent to hold property. Any new buildings and there should be none built except in very urgent cases—should meet the heretofore outlined suggestions."

Wilder was Editor, other Church Magazines and from other sources, during the 19 years, filling in all over 1900 foolscap pages, have been collated and typed in 375 pages but about 100 pages dealing with Kodoli, Islampur and Nipani Stations with a few biographical sketches,

are to be typed. If the Mission will allow me to complete the work I hope to have the work completed by Jan. 17, 1937.

"I might add that about 173 typed pages of secular history dealing with the different parts of the field, collected from many sources, have been prepared. The information collected can be had otherwise only by reading many books, some of which, like Grant Duff's History of the Marathas, are out of print.

"I have found great delight in this work and made it one of my hobbies during the last half of my service in India, and thank the Mission for giving me the opportunity to do this work. The typed Manuscript is not prepared for publication, but the material is in shape for someone to write the History without much searching of records and papers, some of which are not now available."

With reference to this cable the Secretary of the Council sent a communication to the Mission as follows:—"There is sufficient doubt of the Council accepting this condition in view of the provisions of the Manual and the Constitution of the Council, (Manual, sec. 72; Constitution, para. 9) to justify me in asking you to secure from your respective Missions, (or from the Executive Committee in the case of the North India Mission) new nominations for the Secretary of the Council. Each Mission should present three names, which may be chosen from any one or from all of the three Missions, for this office."

### PUBLICATION COMMITTEE

The report of the Publication Committee was amended and adopted as follows:—

36551. That record be made that inasmuch as there is a list of books and pamphlets published outside the Mission, included in another report presented to the Mission this year, no reference be made in this report to such books and pamphlets.

36552. There has been published this year by the Women's Work Committee an edition of 4,000 copies of the Gospel of St. Mark in large type. This book fills a long felt want in our Mission area. The different sections have clearly defined headings, a feature which makes the book especially usable by Non-Christians.

36553. There have been four issues of the Western India Notes during the year. This little magazine which is supposed to be a bi-monthly publication has been of inestimable value in keeping the home Church acquainted with the work being done in this Mission.

36554. There have been four issues of *Amtse patra* during the year. This is a small publication of four pages in Marathi published by the Nipani Station for use among Christians in that area.

36555. Another edition of 1,000 copies of Dr. R. A. Torrey's "What the Bible Teaches," translated through the efforts of Dr. A. L. Wiley, has been issued. Most of these have been disposed of by sale.

36556. An edition of the *Shastrabhaskram* (Religious Education for Primary Schools) has been published by Rev. James E. Napp, D.D. the Educational Supervisor of the Mission. Of the 2,000 copies, 500 copies are for teachers only and these contain, in addition to the regular course, two sections: viz. "Six Forms for Devotions" and "How to tell Bible Stories."

36557. The Second Church, Kolhapur, has begun issuing a weekly bulletin for its services. Besides notices of the Church and Community this bulletin contains a summary of the sermon of the preacher of the day. People unable to attend the service receive the bulletin, thus being enabled to worship, in their homes, with the congregation at the regular time for the service of worship.

36558. Both Miraj and Vengurla Hospitals have again issued their reports in beautiful book form.

### RESOLUTIONS

The report of the Committee on Resolutions was adopted as follows:—

**Charles Edward Vail, M.D., F.A.C.S.**

36564. The Mission records with sorrow the passing away, last March, of Charles Edward Vail, B.A., M.D., F.A.C.S., after a year's valiant struggle to regain health. Dr. Vail came to India in 1909 and he has left behind a record of devoted service. All his life in India he spent in Miraj, working for many years in co-operation with Dr. Sir William J. Wanless and, later on, with others in the Hospital and Medical School. He loved Miraj. On returning from one of his trips to Germany he said that on

Mission for the kindness of His Highness in placing again at the disposal of the Mission, for use during the Annual Meeting, the Vikrasingh Lodge, at Panhala.

**The Rev. George A. Parker, M.A., B.D.**

36568. It was RESOLVED to place on record the appreciation of the Mission of the service in the field of Bible exposition and spiritual inspiration rendered by the Rev. George A. Parker, M.A., B.D., the Principal of the Theological College, Bangalore, during the sessions of the Pre-Mission Conference of the Annual Meeting.

**The Rev. Harry P. Dunlop, D.D.**

36569. It was RESOLVED to place on record the appreciation of the members of the Mission, Pastors and members of Churches of the Kolhapur Church Council of the rich ministry of inspiration and renewal and the healing and fruitful ministry of reconciliation rendered by the Rev. Harry P. Dunlop, D.D. while a guest, with Mrs. Dunlop, within the area of this Mission.

**The Nipani Station**

36570. It was RESOLVED that the Mission extend a most hearty vote of thanks to Nipani Station and especially to Miss Vivian S. Strobbridge for the thoughtful and ample provision made for the members of the Mission during this Annual Meeting.

**STATISTICS**

36571. The report of the Mission Statistician was read and approved. See the appendix for the detailed summary.

36572. It was decided that in the preparation of statistics on literature production and distribution

1. That the number of pages published by the Mission or members thereof be entered.
2. That books sold be classified as under Bibles sold, New Testaments sold, Gospels sold and other Books sold.

**UNION ENTERPRISES AND INSTITUTIONS**

**The Dnyanodaya**

36573. After discussion of considerable length as to whether this Mission should continue its association with the Dnyanodaya, it was decided that a communication be sent to the Board of the Dnyanodaya as follows:—

1. That this Mission deprecates the recommendation and praise of books as “eminently suitable for translation into all the India vernaculars” (Cf. the case of Weatherhead on “Discipleship” page 250, *Dnyanodaya* Aug. 8, 1935) unless the Editor is prepared to vouch for every statement and interpretation made in the books reviewed and to defend glaring omissions of essential Christian doctrines, and

2. That this Mission give notice to the Board of the Dnyanodaya of withdrawal from co-operation one year from date unless all anti-Scriptural views, recommendations of books containing unscriptural teaching are eliminated from the publication and the paper brought into line with sound evangelical truth and teaching.

### Kodaikanal School

The report of the Kodaikanal School Committee was adopted as follows:—

36574. That record be made that of the three recommendations—made by the Mission last year as amendments to the Memorandum of Association two were accepted, viz. That which would permit the School to admit Indian and Anglo-Indian children and that which looks toward the introduction of Domestic Science and Manual Training. The recommendation which advised the closing of the two upper High School Grades was not adopted and the High School continues to be carried on with such adjustments in the matter of Staff as to render the cost comparatively low. The full text of these and other changes and amendments to the Memorandum of Association is to be found on pp. 49, ff., these having been adopted by the School Council as the law of the School, the Governing Board in America having authorized this.

The Buildings and Grounds Committee was requested to investigate the possibilities in regard to a swimming pool. The matter of a Chapel having been taken up, the School Council voted to support the project of erecting the "Margaret Eddy Memorial Chapel" in memory of Mrs. Eddy, who was largely instrumental in the opening of the School. Arrangements were entered into looking toward the creation of Committees both in India and the United States of America for the furtherance of this project, and the sum of Rs. 30,000 was fixed upon as the goal. It was decided that this Mission cordially support this project.

2. In accordance with Board permission it has been the custom of this Mission to retain in the Mission Treasurer's hands any balance of the Board's annual contribution for the Kodaikanal School left unexpended at the end of the fiscal year, the reason being that the Mission's contribution to that School varies with the number of pupils sent there from this Mission and is sometimes more, sometimes less, than the amount received from the Board during the fiscal year. This year, however, by error, and through the failure of the Mission Treasurer to avail himself of Board permission, the balance on hand, Rs. 2,264-12-0 was returned to the Board, to be credited to the Kodaikanal School Fund.

It was decided to request the Board to rectify this error by returning the money to the Mission.

3. It was also decided that the Mission continue to give its loyal support to the School, which is being run with little or no margin of financial safety and which is wholly dependent upon the continued loyalty of the five supporting Mission Boards.

#### **The Union Training College, Ahmednagar.**

36575. The Mission's representative on the Governing Board reported that he had attended a meeting of the Board held Aug. 28, 1936. The Principal reported a large increase in enrolment. The Department of Public Instruction of the Government of Bombay had given permission to increase the number of students who may be admitted to the 3rd Year Class. The enrolment, at the time of the meeting of the Board, was as follows: Indian Christians 52, Hindus 43, Jains 1, Moslems 2. The distribution by classes was as follows:—3rd Year 25; 2nd Year 16; 1st Year 57. The results obtained during the Government Examinations were good. During the last nine years 335 students have been successful in the Training College Certificate Examinations. Of these 276 students were Christians, 56 Hindus and 3 Moslems. It seems clear that the saturation point in the number of trained teachers available for service in Government or aided Schools has not been reached. Practically all the Missions in Maharashtra, maintaining Primary Schools, continue to send students for training. A number of the Native States, within the area of which or adjacent to which the Mission works, are sending students for training, most of whom are experienced teachers. In recent years a number of trained Christian teachers have found openings in institutions conducted by private recognized societies and in schools, maintained by the Local Authorities, District Local Board and Municipality. There has been a marked strengthening of the Staff. Under consideration, at the present time, are proposals looking forward to extensive Property transfer and improvement.

#### **The Wanless Tuberculosis Sanatorium.**

36576. The Mission's representative on the Governing Board of this institution reported that the Sanatorium is making steady progress along all lines. The Staff and the workers are happy and the patients satisfied. A Church was organized March 8, 1936 and a Pastor ordained and installed on October 12, 1936. About 50% of the workers are tithers and the Church is self-supporting.

Patients, numbering 350, were treated during the past year and 900 from the beginning of the institution. The present capacity is 68 public and 62 private beds.

During the past 13 months gifts and donations have amounted to Rs. 40,000. At present the approximate monthly income is Rs 5,000 and the expenses Rs. 4,500. There are two items of debt amounting to Rs. 4,400, exclusive of a bill on account of travel for Sir Dr. William J. Wanless in 1931.

The Sanatorium is all full. The percentage of bed occupancy is 99.4%. The number of operations performed to date is 490. The general mortality rate has been 2.6% and for major operations 7%.

Dr. K. K. Chaturvedi, M.B.B.S. joined the Staff in March. Dr. G. Samuel, on study leave, is expected to return in June 1937, having passed his M.B.B.S. Examinations.

The growth of the Sanatorium is shown by the following table of distribution of expenses:—Buildings 22.5; salaries, 26%; Equipment 17.4%; Food and drugs 19.4%; Debt 3.6%; all else 10.2%.

### Women's Work

The report of the Committee on Women's Work was adopted as follows:

36577. The number of women studying the Mission's Bible Course was 667. Examiners, appointed by the Women's Committee examined 279 women and 33 men and of these 291 passed.

36578. It was decided that the grant for publishing, Rs. 250, be renewed, the plan being to publish the Gospel of Luke in large type.

36579. That members of the Committee, as nominated, be declared duly elected as follows:—Miss C. L. Seiler, Chairman (1936-1937), Miss V. S. Strobbridge, (1936-1938), Mrs. R. C. Richardson, (1936-1939).

### The Closing Session

36580. The closing session was held Monday night, November 2, 1936, the President, the Rev. A. L. Wiley, Ph.D., being in the Chair.

36581. The Minutes were read, corrected and approved. The roll was called, showing 27 regular missionaries in attendance. It may be noted that of the period October 22, 1936—November 2, 1936, four days and one Sunday were set apart for devotional and inspirational services, one and one-half days for the meetings of Departmental Committees, and four and one-half days for deliberation and decision in the affairs of the Mission.

36582. The President offered the closing prayer and formally declared the Sixty-Fourth Annual Meeting of the Western India Mission adjourned.

*President*—A. L. WILEY.

It has been impossible to get the literature statistics for two reasons :—

The Mission could not decide what it wanted under this head.

The Stations did not report on any definite line.

Some Stations included in their distribution tracts and leaflets. If all the Stations had done this there would have been many more thousands to show. Some Stations reported only sales of Bibles, New Testaments, Gospels and other Religious Books. A few Stations reported not at all.

My suggestion is that we go back to our old form of reporting literature statistics, viz. :—

Bibles, New Testaments, Gospels, Other Religious Books
