IN MEMORIAM

Mrs. Hunter Corbett

In the passing of Mrs. Hunter Corbett on January 28, 1936, in Shanghai from bronchial pneumonia, the Shantung Mission has lost one of its oldest and best loved friends.

As Harriet Sutherland, she was born in Cobourg, Ontario, Canada, April 20, 1859. After finishing her nurse's training, and while serving as head nurse in the Toronto General Hospital, she was asked to go to China as the first nurse to help open up the hospital work in the province of Honan for the Canadian Presbyterian Mission, and sailed in the summer of 1888.

On arrival in China, she was assigned to Chefoo for language study, and a year later married Dr. Hunter Corbett. During these early years, in spite of her many duties in the home, seeing the need for medical work, she was able to open a small dispensary for women and children, thus laying the foundation for the later work which became the Temple Hill Hospital. She also gave much time to the teaching of knitting to the women and girls of the schools.

The present kindergarten too, had its beginnings in a kindergarten which she started in the old church building. Later when the factory work developed, even after her retirement, she gave freely of her time to visiting the factories, giving first aid to the women.

After Dr. Corbett's death in 1920, in her characteristically unselfish manner, she gave up the old family home on Temple Hill, feeling that it was needed by others. She remained on as a regular missionary of the Board until June, 1922, when after 32 years of service she was released from active duties, though remaining in Chefoo, where her friends continued to find her, and where she continued to be useful in the work of the station.

Mrs. Corbett was preeminently a home maker, and in that capacity will be most missed. Her beautiful character, her cordiality and human sympathy made her home a place sought by many. Her memory will ever live in the hearts of her hosts of friends.

The Tsingtao Christian Bookstore, a union enterprise of the Lutheran and Presbyterian Missions, has proved to be a very worthwhile agency in the Christian work in Tsingtao. Despite a severe loss in the Ming Hua Bank failure it has come through as a successful business venture. The necessity now of procuring a new building and the offer of the Lutheran Mission to supply that need if a loan from our Mission can be secured convinces us that we should, if possible, secure that loan.

Voted, therefore, that we endorse the request of the Tsingtao station for a loan of $2000 from C.C. Lit. Fund, without interest to be repaid by the Lutheran Mission in five years.    (c) That the Chairman appoint such committees as may seem desirable, to make plans for this meeting.

2. While recognizing the great value of general mission meetings especially in the opportunity they offer for exchange of views and profiting from the experience of others in similar types of work, we believe that the value of the meetings would be greatly enhanced if at times they could be attended by representatives from our sister missions in Japan, Chosen, the Philippines and China.

   (a) We therefore suggest that invitations be sent to these missions to send delegates to attend the 1937 meeting of the Shantung Mission.
(b) We also suggest to the China Council the desirability of making arrangements whereby these delegates may include visits to other China Missions in their itinerary.

(c) We further suggest that an invitation be sent to other Missions working in Shantung to send delegates to the meeting.

3. That each station be requested to present a written report at the 1937 Mission Meeting, on the work of the year, especially in its relation to the recommendations made in the 1936 survey.

Voted, that a hearty vote of thanks be extended to our hostesses and to all those who have contributed to the success of the meeting.

Adjournment.

The meeting adjourned followed by the singing of the Doxology. The benediction was pronounced by the Chairman, Rev. Paul R. Abbott.

36162. Evangelistic Committee Report.

The growing sense of responsibility for evangelism developing in the Chinese church is one of the most hopeful signs in mission work today. In fact we are seeing the church reaching toward the goal which the Mission has set for it, the church, self-supporting, self-directing, and self-propagating. The reaching toward this aim is the result of years of effort on the part of the evangelistic missionary, supported by the training of competent leaders in the educational institutions of the church.

Stewardship Campaign.

The stewardship campaign by a Chinese pastor who has made a thorough study of Scripture and is able to present his message effectively and fully has been a great help to a number of stations this past year. Those who under the inspiration and convictions of these meetings were enthused to promise to give a tenth of their income to the Lord’s work run into the hundreds in each territory he visited. The outlook encourages us to believe that far greater responsibility in self support will be the result.

Where only a few years ago there were no fully self supporting churches, now every station can point to at least one fully self-supporting church and others that soon will be.
In the Chefoo field, the contributions towards the pastor’s salary in three of the churches have increased 50, 43, and 33 per cent respectively over last year. In the Weihsien field there are 18 churches and 3 independent churches that are self supporting. Tsingtao reports their nine churches with pastors all self supporting and 18 other churches for the present without pastors that pay all their church expenses. The north suburb church at Tenghsien supports their pastor, repairs the church building and parsonage loaned them by the Mission, and have raised $1000.00 towards the purchase of a site for their new church. The Yihsien church supports their pastor and in addition is supporting a Seminary student this summer to carry on evangelistic work locally. The Tsining Memorial Arch Street church the center of a “Tithers Society”, has under written $336.00 of their pastor’s salary, given $50.00 to the hospital for the purchase of new beds, $50.00 to their primary school, and paid the expenses of their delegate to an evangelistic conference.

FLOOD

On the tenth of July 1935, the Yellow River broke through the dike 80 miles west of Tsining and within a few days the water had spread out over a territory equal to the combined areas of Delaware and Rhode Island, coming up to the very doors of Tsining.

Governor Han will long be gratefully remembered for his prompt action in removing 300,000 flood refugees to 87 counties in the Province where they were cared for through the winter till they were able to return after the break in the river had been stopped.

This once prosperous plain covered with cities and villages was turned into a mass of soft mud with the homes of the people totally destroyed. The refugees living in camps in large numbers were easily victims of disease and the hospitals gave valiant service in not only caring for the sick but in taking preventative measures. With the flood relief funds for medical
work there were other funds secured for preaching and holding Bible classes.

In both the Tenghsien and Yihsen fields, Bible classes were opened. At Toa I Kou, 70 women were taught for 2 months, and a larger group of men who were employed in making roads were also taught. At Tenghsien 36 women were taught and 34 of these gave evidence of believing and were very grateful for the help given to them.

In Tsining field a noteworthy example of a model county government has been in force under the leadership of Mr. Chang Hung Chun. In developing his plan for a county hospital with branches in each of the ten districts of his county, Magistrate Chang sought the help of Dr. Scovel and plans were worked out which brought much relief both in helping the flood victims and in preventing disease in the camps where the refugees were located.

**Volunteer Preaching Bands.**

In line with the work of self-support and self-propagation comes the work of volunteer preaching. During the idle season for farming groups of earnest Christians will go out to the unevangelized villages preaching and selling Gospels. The proceeds from the sales of the Gospels make it possible for them to pay their daily expenses as well as to give the people the opportunity to read the good news of salvation for themselves.

In the Tsinan field, a pastor and five men at their own expense made a tour of the entire field. Four bands in the north east Tenghsien field visited 290 villages with the result that 19 villages offered the bands a room for a chapel if they would stay and teach them. The students of the North China Theological Seminary and the Mateer Memorial Institute go out every Sunday afternoon to definitely assigned fields and villages are being opened and people are finding the way of life.
Tent Preaching.

Tent preaching is used effectively in most of our stations. Weihsien reports that at the New Year's, thousands attended the daily preaching that was done by volunteer workers. In one of their churches both men and women gave time and money that they might have their own tent with which to do evangelistic work. People will come to a tent and listen attentively who would not go to a chapel, so when a group go to a village and stay there for two weeks, a group of believers is nearly always one of the results. At Tengchow an evangelistic band spent 6 weeks in 3 villages which resulted in 30 inquirers being enrolled.

Tsingtau Christian College Fellowship.

The Tsingtau Christian College Fellowship report an English Bible class with an average attendance of 25. Four teachers and 35 students have been baptized, three fourths of whom were the results of Bible classes and personal work. Their choir of 30 voices gave a concert and raised $700.00 for flood relief.

Use of Music.

In the Yihisen field one of the students is spending his vacation in going from village to village where there are believers and teaching them choruses of which the people are so fond as well as hymns. An effective way of memorizing Scripture is to set a verse to some tune and then teach it to the people. The twenty third, one hundred and twenty first, and one hundred and twenty third psalms are favorites with many people. The "Hallelujah Chorus" sung every year by a choir of nearly 60 voices is always a musical treat to the musical lovers at Tenghsien.

Work among Women.

The work among women in the Tengchow, Chefoo, Weihsien, Tsingtau, and Yihsen fields has been especially encouraging. Old churches have been revived, new villages
opened, and many have had their faith built up. At one place a woman who had a grudge for 45 years against a relative, on accepting Jesus as her Saviour, went and apologized to her. At another place a woman who had been repeatedly beat by her husband, had the joy of seeing him converted, his wine drinking given up and an earnest desire on his part to live right. Four groups of workers in the Weihsien field, took with them small pox vaccine kits and vaccinated 520 people. The women from the Chefoo Ai Dao School are used to teach the women to read and are leading quite a number to Christ every year. At Ke Kou, a back slidden woman was convicted of her sins, confessed them, and began to win others for Christ. Through her testimony six have become believers and the group there that quit going to church have been revived. A Woman's Auxiliary was started last December in the Yihisen and Tenghsien fields. One meeting per month is planned for all the women of the church which is a devotional service, where missionary information, and talks on hygiene are given. Every week small groups of women meet in one of the homes for prayer and for helpfulness in meeting individual problems. There are now 34 places where there is such an organization.

**Popular Education.**

The Popular Education classes have not only resulted in teaching people to read but a number of these people are becoming Christians. At one place where the church showed little signs of life a Popular Education class has been organized with 70 pupils. The Phonetic system is taught in a number of places for it is so much quicker than the character. We are realizing that an ignorant membership is easily led astray while an informed church member both grows rapidly and keeps his balance in times of stress.

**Travelling Library.**

Weihsien has a paid evangelist to take good literature to the villages where books are loaned in church centers
for a period of two weeks, when he again goes and collects the looks and loans. The evangelist at Weihisen reaches 50 villages by such a method. Books are also for sale to those who want to buy.

Recommendations.
1. That in each of our stations we give as much encouragement and assistance as we can to deepening the interest in Tithing.
2. That we plan for more and better evangelistic bands to do pioneer work.
3. That we lay greater emphasis on teaching every believer to read.
4. That we do what we can to help forward the work among women and encourage the organization of women’s auxiliaries.

EDUCATIONAL COMMITTEE REPORT
36163. Survey of Mission Schools.

During the year, the chairman of the mission and the secretaries of the Christian Educational Association assisted in gathering material for a survey of schools connected with the mission. Replies have been received from thirty-two institutions. Eleven are middle schools, registered and non-registered, eight are primary schools and six are kindergartens. There are also five women’s Bible schools, one school for the deaf, and one agricultural school. Although there are a few omissions of individual schools, each station is represented, and the replies are sufficient to indicate something of the present status of Christian education in the province, as well as of the important problems confronting it. One is impressed both by the range of interests, and by the vitality of church schools of all grades, in the face of serious obstacles. One of the most stubborn difficulties is that of finance. Of 26 schools who ventured to describe their financial outlook, eleven expressed misgivings as to the future and ten could only say
they were managing to hold their own by dint of rigid economy, especially in paying salaries. Only five schools of four different grades were optimistic about the future. Thirteen of the 32 replies bore witness to the active good will of the community toward the school. Eight felt that they were competing with government institutions, as compared with eleven who answered this question in the negative and three others who regarded it as a factor of slight importance. Eight schools, ranging from kindergarten to middle school, reported an increase of girl students. In two other cases, special circumstances were responsible for an opposite tendency. With proper organization and staff there would seem to be a special opportunity for education of girls and women under Christian auspices. A good many attempts were reported to give some training for homemaking, but these were all on a modest scale, and represent a feeling of need rather than an adequate program. Practically every school of whatever grade reported some attention to the health of the students and to health instruction. One of the needs expressed at the last mission meeting was that of guidance for students in choosing their life work. Seven of the eleven middle schools are trying to meet this need by conference and discussion with the graduating classes. Four bring in outside speakers to discuss various vocations, but four others feel their opportunity for such speakers is limited. Ten schools, of all grades, make some use of community resources in their teaching. In nineteen, the curriculum includes handwork, usually of a very elementary nature.

The lack of qualified Christian teachers appears as a central problem. In nineteen schools, the entire faculty are Christians; in ten this is true of the majority of the teachers; only two primary schools report a non-Christian faculty. Five schools specify Chinese as the subject for which it is most difficult to secure satisfactory teaching, although one has found the reverse to be true. Several other subjects are also mentioned
in both categories. One principal suggests that the problem is not so much one of teaching specific subjects, as to teach pupils to think for themselves. The head of a women's Bible Institute asks for teachers who know how to help students to a real knowledge of what it means to belong to Christ.

Religious activities in the schools include chapel services (twenty reporting), Bible classes (19), groups as evangelistic bands or Christian Endeavor groups, (16), Sunday Schools (14), and choirs (9). Only four schools mentioned social service activities. In eleven schools of all grades the majority of the students are from Christian homes, and in twelve the reverse is true. Six schools make mention of special meetings as the evangelistic method found most effective, while five others have been most satisfied with the results from personal work.

Educational Committee Recommendations.

The mission meeting of last year made several recommendations. Some of these are in the nature of statements of policy. Others called for definite action. While it is not possible to report achievement in all instances, there are several points where progress has been made. The need for a code of professional ethics for Christian teachers is being met by a committee working under the Council for Secondary Education of the China Christian Educational Association. The representations of liberal educators as well as Christian bodies has been responsible for government action looking toward the lightening of the over-loaded prescribed curriculum. The attention of the secretary of the North China Christian Educational Association has been called to the other recommendations, and his promise of cooperation has been secured in carrying them out within the limits set by time and circumstances.

Visit from Educational Secretaries.

The secretary of the North China Christian Education Association, Mr. Victor Wang, together with Dr. Chester Miao of the China Association visited most of the stations in March,
and reported a fine spirit with many evidences of growing strength on the part of the Christian schools. There is an increased confidence, born of successful experience and a better grasp of administrative affairs, wherever there has been continuity of service. At the same time there is a keener interest in the deeper meaning of education given in the name of Christ.

36164. *Report of the Medical Committee.*

In all our hospital reports, statistics show progress in various lines of service as well as increase in the hospitalization of the sick.

*Flood Relief:*

Tsining, Tenghsien, Yihshien and Cheeloo have been extremely busy caring for flood refugees. Cheeloo staff and students have done a notable piece of work in the camps as well as in the wards, and have put much work and thought into the prevention of disease among these people. Much gratitude is due to the China International Famine Relief, which financed much of the work done by our hospitals for flood refugees.

Chefoo Hospital is again indebted to Dr. Hoyte of the C. I. M. for his services this spring and summer during Dr. Dilley's illness and their great problem and ours, is to find a surgeon for his place in that important port as also doctors for several of our other hospitals. U. S. Navy doctors are appreciating the use of the Operating Room.

Yihshien reports the opening of Rural Medical Work and the opening of a hospital kitchen to replace the old method of the patients' friends supplying the meals for them.

Weihshien reports Public Health activities, leper treatments as well as Leper Clinics are on the increase; Mother's Clubs with health programs and vaccinations numbering seven or eight thousand. Teams of staff and students of the School of Nursing trained groups of high school boys and girls, country school teachers and some others, who in turn and under supervision of a captain, vaccinated people in country and city schools and any others who would come.
Tsinan East Suburb and South Gate are each doing a unique piece of work in Obstetrics and Infant Welfare.

Cheeloo Hospital is rejoicing in the opening of the first wing of the new hospital and O. P. D, which tho in use for some months, was only formally opened at commencement time.

All of these hospitals are stressing evangelistic work in wards and O. P. D. by both paid and volunteer workers, in most of them the staff and students feeling it not only a responsibility but a privilege.

*Annual Physical Examinations:*

Reports have come in showing physical examinations complete for all adults and children with two exceptions.

*Nurses’ Training:*

The five Schools of Nursing in the Mission are carrying on and have all graduated classes after having passed the examinations of the Nurses Association of China.

36165. *Memorial on Honorable Retirement of Dr. Emma E. Fleming.*

Shortly after the opening of the Ichowfu station the need for medical work among women was seen and Dr. Anna Larson was appointed in 1892. She had only a dispensary and after five years died of typhoid fever, so when Dr. Emma E. Fleming took her place in 1898 it was still pioneer work. She had graduated from Park College and the Women’s Medical College in Chicago. The work gradually grew till Ichowfu had a men’s and a women’s hospital. Then the need was felt for a modern plant where both men and women could be given more scientific care. Dr. Fleming while taking her full share of responsibility in the new hospital, and in the nurses’ training school, which it is now possible to carry on, has kept her dispensary in the old plant, and a hostel for women unable financially to go to the other hospital, and who are not so sick but that they can be waited on by friends or relatives.
From the first Dr. Fleming felt definitely called to the work in Ichowfu. However, after the two years she was at home caring for her mother, she was appointed to Weihsien for a year. The people here were so eager for her to return, and she herself so felt that her work was here that the Mission sent her back, and since then she has given herself freely to the Ichowfu folk though she might have had an easier task and more of worldly honors elsewhere.

Dr. Fleming was a student volunteer before she decided to become a doctor and has always felt her ministry to be more than for the bodies of men. She has done evangelistic work in the hospitals, in the city, among the guests who have called in the home, and has always been interested in all the work of the station. She has looked after the health of the students, has led prayers regularly in hospital and Bible School, has taught a Sunday School class for the women, and has served on the school board and other committees. She has also acted as treasurer for the hospital, a difficult task of which she would gladly have been relieved. She is especially beloved by the older Christian women, who have an intense admiration for her and for whom she has labored unceasingly with deep interest in their spiritual welfare. The great event of her 70th birthday was the dinner party which she gave for those women who have been Christians for over twenty-five years.

She is now giving volunteer service until Dr. Harding can return, thus nearly completing the forty years she had hoped so long might be hers to serve. Her deep desire to witness for her Lord will mean that wherever she is, so long as she is able, her work for Him will not cease; and she will be followed by the love and prayers of those to whom she has given herself so freely throughout her years of rich, varied, fruitful, and faithful service. May the years for all of us bring with them the same gracious enrichment of life and character they have brought to her!
A friend writes; "She has indeed been a wonderful worker. There have been few to equal her years of service, especially in the measure of good health which has been hers. But she has been a woman whom God could use with power, and no wonder He has blessed her with good health. My love and admiration for her grow with the years."

36166. Cheeloo University Board of Directors Report.

One year ago an atmosphere of pessimism and gloom enveloped the University. Uncertainty filled the minds of all connected with the institution and many believed there was little hope that it would be possible to continue for another year. During the summer Mr. Shuming T. Liu, a native of the Tengchow district, a graduate of the University, a professor of International Law in the Peiping University, consented to become President for one year in the hope that he might be able to help his Alma Mater and the Christian church by assuming such responsibilities. With profound gratitude it is learned that President Liu has now promised to continue to serve. Mr. Liu has sought in every way to foster the Christian atmosphere and spiritual life of the University.

The change which has taken place during the school year is little short of miraculous and seems to be another evidence of God's readiness to answer prayer and a testimony, that His benediction rests upon the University as a part of His program for the building of the Church. Optimism, expectation, and harmony are now seen and felt on every hand. Many grave problems have been met and solved. While the year's work has been much disturbed in nearly all other institutions of higher education in North China the class work has been carried without interruption. The total number of students enrolled in the autumn term of 1935 was 600 and for the spring semester of 1936 was 561. The largest number from any Mission was the group from our own churches, 78. The next largest was that from the Methodist Episc. Mission, 52, and following that came the 28 from the Am. Bd. Mission. Thus it would
seem that our Presbyterian Mission is still taking the lead in educational matters.

There are still many difficulties to be met and complex problems to be solved but President Liu has accomplished wonders already, far more than the most sanguine dared hope. We are eneubted to him for his self sacrificing, courageous and loyal service. We have cause to thank God for raising up at this crisis of the University such a man.

Due to the drastic cut the Chinese members of the faculty voluntarily took in their salaries, strict economy in all departments, and the success of the President in securing additional funds and a special grant of Cand. $2500 from the Canadian Union Women’s Board the year not only closed with no deficit on the current year but also with the Accumulated deficit of the previous years reduced by considerably more than one half.

The June Meeting was the first with the reorganized Board, for which we elected a foreign and a Chinese representative at our last Mission Meeting. Sincere appreciation and thanks was expressed to the Administrative Officers for their efficient and loyal services in maintaining the institution during the year past. Special thanks were tendered to the President in this connection.

The new Hospital was completed and put into use early in the year but the formal opening was not held until Commencement Day when General Han Fu-chü, chairman of the Provincial Government, delivered the main address at the formal ceremony held in the new promises. This plant is well planned and attractive and is proving to be of inestimable value. It was most fortunate that these enlarged quarters with the improved facilities for handling all branches of the medical work were ready for use just as the unusual burden of caring for hundreds of flood refugees fell upon the medical staff. Admirable as this first unit of the new hospital is felt to be, the Board
pointed out the desirability of increasing in some way the accommodations for first-class private patients.

The Board was somewhat surprised to learn that the budget has never included adequate provision for upkeep and repairs on the buildings. Consequently certain of the properties are now in need a considerable outlay. The Finance and Property Committee was asked to take steps to secure funds and carry out the necessary repairs. Plans were also proposed for correcting this situation in the future.

It was reported that dormitory fees had been made uniform for all departments. The budgets presented were only approved up to the limit of the budgeted receipts or in case the additional amounts called for were received during the new year.

As Cheeloo is now doing considerable extension work along a number of lines it was approved that an Extension Department be organized to correlate the various activities of this sort and to promote cooperation in such work with other interested organizations, President Liu was made the head of this department with Dr. Carson as Executive Secretary. A cordial welcome was extended to Dr. H. H. Love of Cornell University to come to Cheeloo as advisor for the Rural Program. Two new staff appointments were announced. Dr. Lois Witham has been assigned to the Medical school by the W. F. M. S. of the Methodist Episc. Church and will begin work in the Departments of Biochemistry & of Physiology at the end of the summer. The English Methodist Missionary Society has appointed Dr. Stanley Prescott to the University and it is expected that he will arrive in China in the autumn. Memorials were passed upon the death of Dr. J. D. Mac Rae and of Mr. P. C. Cassat, both of whom had rendered most valuable service during the years of their association with the University, from which they had retired because of ill-health.

The list of students approved for receiving degrees was divided as follows From the school of Arts 22, Science
21, Medicine 16, Radio 5, Pharmacy 3, Nursing 10, A total of 77.

36167. *Cheeloo Rural Institute.*

In the Lungshan district there are now 24 cooperative credit & savings societies with 331 members. Loans have been secured from the Bank of China amounting to $10,120.00 and distributed to the members thru the Union and the local societies. The Service Center acts in an advisory capacity.

Enthusiastic popular education classes have been carried on in six village with 117 pupils.

The homemaking program has been carried on by Miss Chi Yu-chen, a graduate of the Cheeloo School of Theology. After advanced study in Scotland Miss Chi was engaged in work in Manchuria until political disturbance made it inadvisable for her to remain there.

Dr. P. S. Evans has efficiently conducted a regular clinic at the Lungshan center. After his departure on furlough volunteers from the Medical School visited the center twice a week to continue this work.

Miss Margaret Shih has been in charge of the public health program and maternity and child welfare work. In six months from December to May the clinic had received 1321 visits from old patients 410 from new ones. There were 4 maternity and 2 emergency cases. 31 children had been examined and 81 vaccinated. Many talks and lectures were also given.

Devotional services are held each morning and Sunday worship. Two special retreats were held one in the autumn and one preceeding Easter.

Primary schools and social service is carried on in 2 villages adjoining the Cheeloo campus. It has been suggested that a fund be raised as a memorial to Dr. Susan Waddell who put so much effort into these villages, to be used for health work in them.

Two Directors of the N.C.A.S., Messrs. Eames and D'Olive, attended the Annual meeting of the Board which was held on January 16th in the Auditorium of the P.U.M.C.,

The following recommendations of the Executive Committee, were passed:

1. That, instead of putting a sum of $50 at the disposal of the Pentagon Group each year to be expended on some needed gift to the school, suitable wooden tablets be arranged for and hung in the Chapel, upon which the names of those receiving the award shall be inscribed.

2. That the rent of textbooks be increased from $10 to $16 a year, that is, $4 a quarter.

3. That Mr. Harold W. Robinson be appointed Principal of N.C.A.S. for the year 1936-37.

The Curriculum Committee presented certain recommendations the following points being emphasized:

1. Greater flexibility in the requirements for graduation.

2. That the method of supervised student projects be used as far as feasible.

3. That a course in Civics be included in the curriculum.

4. That a standardized course in Chinese language, based on a definite minimum amount of earlier preparation, be recognized (except in special cases) as part of the regular work of the 7th and 8th grades.

5. That a general home-making course for girls and boys alike should be provided.

Final action on the report has not yet been taken.

*Dr. Begg's Premature Departure.* During March Dr. Beggs, while in Peiping over a week-end, suffered a sudden attack of illness, which made it advisable for her to return home as soon as possible. She sailed from Kobe on April 8th.

We wish for her a speedy recovery in the homeland. It was voted that the Chairman should write her a letter of
appreciation of her services, and expressing the regret of the Board in losing her.

Since the departure of Dr. Beggs, Mr. H. W. Robinson, has been acting as Principal in an efficient and acceptable way.

Amendments to the Constitution. Five Amendments to the Constitution were passed, one of which was: "There shall be in addition an Ad. Interim Committee, which shall meet in June, the members of which shall be the Executive Committee of the Board, and two or three other members chosen at the January meeting of the Board, if possible from groups not already represented on the Executive Committee." The undersigned was elected on the Executive Committee.

Attendance. There was an enrollment of 54 this year, and while 5 graduated, and others will be leaving the school, returning home, there are prospects that the attendance for next year will be about the same.

Pentagon Award. Four students received the Pentagon Award this year, one of whom is from our Mission. The students are elected to this Group by the student body, and approved by the Faculty, on the following five points: Integrity, Industry, Scholarship, Loyalty to School Ideals, and Spirit of Service. This Award was instituted by Dr. Beggs three years ago.

Health of Students. There were no epidemics in the school this year, which might be accounted for by the fact that the school has its own infirmary; a longer winter vacation; the good oversight of the students by Dr. H. L. Robinson, of the American Board Mission; and the good care of the efficient Chinese nurse, Miss Li, who joined the staff in January, and who takes a special interest in the students, and is popular with them.

Finances. The School is in much better financial condition this year than last. The Treasurer reports that: "Notwithstanding the tremendous loss which the school sustained through the failure of the American Oriental Bank, we
have a surplus of about $3000.00, since the receipt of the last dividend from the bank liquidator.” The Treasurer also reports that there will be an estimated gain for this year of $1100.00.

**Student Fellowship Church.** Mr. Rowland M. Cross, of the American Board Mission, was again in charge of Religious Activities this year, and classes in “preparation for church membership” were held this year, the same as last. Last year there were 37 who united to form the Student Fellowship Church. This year 12 were received as members, either on confession of faith, by letter, or as associate members.

**Music.** The school has been especially fortunate in having Mr. Curtis Grimes, a gifted and well known teacher of music, to teach piano. Tuesday night of Commencement Week his students at N. C. A. S. gave an especially fine recital, a credit to their teacher. The teacher of violin, Mr. Ma, is a popular and efficient teacher. Both Mr. Grimes and Mr. Ma will continue as teachers next year. The School also has an excellent orchestra and choir. Mrs. Hunter and Mrs. Cross, of the American Board Mission, gave freely of their time in the training of the orchestra and choir respectively.

**Faculty.** Although four members of the Faculty have resigned, namely Miss Stewart, Miss Ryland, Mr. MacDonald, and Mr. Sun, teacher of the Chinese language, the Executive Committee of the Board, at the June meeting, voted to invite four new teachers to take their places; two from the U. S. A. and two here in China.

May I say here that the Board is very fortunate in having Dr. Paul H. Stevenson, of the P. U. M. C., as Chairman. He is very thorough and efficient and takes a real interest in the school, making frequent visits to Tungchow to look after its affairs.

In closing, I wish to say that I was present for the Commencement this year, and I was very highly impressed with the academic standing, the spiritual atmosphere, the spirit
of friendliness and cooperation on the part of all, particularly the members of the American Board Mission, and I would heartily recommend the N. C. A. S. to all parents in North China, and urge them to send their children there for an all-around education, spiritual, mental, and physical.

Respectfully submitted,

W. C. D'Olive.

Though the year has brought difficulties, trials and heart burnings, yet our trials have not been so great as some other institutions, for we have been able to keep our doors open and carry on the work of preparing men and women for the work to which we trust the Holy Spirit has separated them. This is due in great part to the faithfulness of our friends at home and also to the economy which has always been a characteristic of this school. In fitting men and women to labor among the common people of China and have them listen gladly, as the common people of Galilee listened to the Master, simplicity of life like His is essential. From the first, our endeavor has been to have the life of the students correspond, as far as possible, with their home life, so the dormitories are all in Chinese style, being such buildings as the Chinese church might be expected in the course of not many years to provide for its pastors. We need more provision for current expenses, increase in the Chinese faculty, and a better equipped library, but with the exception of an Assembly Hall, no more or better buildings are now called for.

The total attendance last year at the Seminary including 25 from the co-ordinate Women's Bible Seminary, was 148. and the increased desire for such education is one of the most hopeful signs of progress in the church at large. Only thirty years ago, though travel, board and books were all furnished free, it was with difficulty that a class of six
or seven could now and then be gathered together. Now we have from twenty to thirty applicants each year for entrance, and the Seminary holds itself not responsible for any of the above items, except for part of the board and the travel of Northern Presbyterian students who have been accepted by their presbyteries.

This year the Seminary graduates 16 young men and one young woman, while the Women's Bible Seminary sends out five young women. Our great difficulty is in securing men who have the requisite preliminary education. Only such as have the standard preliminary work are eligible for diplomas—others may receive certificates and among these are some of our best men. Students of mature minds and who are able to take the work in the textbooks may come in for a partial course—among these are some pastors and church leaders who desire either to review their theological work or to add to their knowledge of the Bible.

Respectfully submitted

W. M. Hayes.

36170. The Mateer Memorial Institute Report.

We are grateful to God for another year of peace and progress. Improvements in the material equipment, quietness and diligence on the part of the students, and harmonious cooperation of the members of the faculty, are all cause of gratitude for the past and hope for the future.

I. Finances.

There is a deficit of $326.00 which has been advanced by the treasurer from outside funds. This is due to the failure of the cooperating mission to make the necessary increase in the annual appropriations, and to the decrease in income from students, caused by a falling off in enrollment of 30 students as compared with 1933-4. In an unregistered educational institution of this kind we have no way to increase the student body, since we are limited to the Christian constituency. So
if we are going to maintain such an institution, it is imperative for the Board and the cooperating missions to increase the annual appropriations.

II. Student life and activities.

There are many evidences of real spiritual life and progress among the students of all departments. In addition to the regular morning chapel, they have their own voluntary small prayer groups. At the beginning of the fall term we had a splendid and most helpful series of meetings lasting five days under the leadership of Rev. C. H. Patterson. Religious activities of the students consist of teaching in the Sunday School, and evangelistic work in the field assigned by the Presbytery. They go out in bands every Sunday, and show real zeal and earnestness in the work, which have been rewarded with encouraging results.

The music courses, literary society, and amusement night have been carried on as usual, and we believe with benefit to the students.

III. Student fees.

Tuition for men $6.00 per term; women $4.00; none in Bible School. Board per term men $20.00 women $18.00. Incidentals $6.00. Chemistry fees $2.00. Damage fees $1.00. Total per term including books and miscellaneous $45.00.

Cost to missions per student per year $20.00

IV. Graduates in 1935.

In June 1935 there was a total of 45 graduates in all departments,

Of the 18 men graduates, 6 entered the Presbyterian Building Bureau of Peiping, and we have received excellent and encouraging reports about them, especially as to their diligence in study, good behaviour, and helpfulness in church work; one entered the North China Theological Seminary; one is teaching in the Junior Department of the M. M. Institute; 3 are teaching in mission schools; 2 are in evangelistic work; and 2 are studying medicine.
Of the 10 women graduates 3 are in evangelistic work; one in the N. C. T. Seminary; 2 are teaching; one is studying nursing.

Of the 3 women graduates of the Bible Department, one is studying in the N. C. T. Seminary; one is teaching; and one is in evangelistic work.

Of the 15 Junior Dept. Graduates, five entered our Senior Dept., and the rest entered other schools or are not in school.

V. Equipment and improvements.
1. We are indebted to Mr. MacLeod for his continued efforts to improve the roads and beautify the campus.
2. Improvements have been made in the athletic fields both on the south and the west.
3. We have concentrated this year on improving the physics laboratory, and have spent about $300.00 on new apparatus.

Respectfully submitted for the Faculty,
M. A. Hopkins, Principal,
Y. C. Chirt, Vice Principal.
H. G. Romig.

Fifty-five deaf children, eleven girls and forty-four boys between the ages of seven and seventeen, have made satisfactory progress in learning the language necessary to communicate with their home people. More than three hundred Chinese, aside from parents and relatives, have seen the children at work and many of them have been impressed by their happy faces and their eagerness to learn new words as well as by their ability to write complicated Chinese characters after only a few months in school.

A normal class of four hearing teachers-three of whom have been given diplomas-was comprised of a young woman
from Szechuan for the Chengtu School, a second from Hunan who will teach at the Wuchang School and the third, the daughter of our matron and steward, a trained kindergartener, who will take the place of a teacher who resigned last year. The fourth teacher, did not enter the training class in time to do a full year of work but he has had to take the place of a teacher whose death made it necessary for us to employ a second man teacher and he will be eligible for a diploma next year.

The important work is to teach language, both written and spoken, and five hours a day, five days a week, has meant considerable activity on the part of both pupils and teachers. In addition one hour and a half is spent on Saturday mornings in preparing for the Bible lessons which they have on Sundays. In our daily contact with these children we keep in mind the fact that through them many of their relatives in the fifty-five homes which they represent may be led to Christ. Each one of the ten students in the two older classes has expressed a desire to be a Christian and to be baptized when they are prepared for that important step.

The "Christian Farmer" (T'ien Chia Pan Yueh Pao) continues to meet the need of country church members for information on topics of interest to them in language which they can understand. Special section may be used for family or group worship. Evidence is constantly accumulating from letters and personal conversations to indicate the warmth of affection which the readers have come to feel toward the paper. The subscription list has reached the 17,000 mark. When it is arranged by provinces, Shantung stands at the top, but subscribers are found all over China as well as in Korea, Siam and the South Seas. The paper is published under the direct auspices of the Literature Department of the North China Christian Rural Service Union, of which the Shantung group is one of the three constituent units.
Because of the very nature of their duties, country workers are in special need of organization for mutual assistance and for interchange of experience. The Inter-Provincial Council of the North China Christian Rural Service Union is beginning to function as a fellowship of rural workers. A Rural News Bulletin may be issued as a means to this end.

In March, a delegate from the Shantung Union attended a meeting on the Christian Home, called at Paoting by the Homes Committee of the Hopei branch. At the annual meeting of the Shantung Union, held at Choutsun on the thirtieth of June, it was felt that it would be of advantage to have a similar committee working in this province to help the church strengthen the Christian home life of its membership. At the same time, two other committees were asked to study the problems of health education and of cooperative societies from a Christian viewpoint.

As 57, these were in excess of the required work for the Peking 3 year course, the language committee reported 144 plus 9 work credits, or a grand total of 153 credits.
