For the month of June, no German figure will be able to rival the attention focused on Franz Beckenbauer in Germany. Widely considered the best soccer player ever produced by Germany, he will now preside over a tournament of thirty-two teams, the survivors of an elimination process involving ____ teams, that has gone on for over two years.

The impact of the World Cup is difficult for Americans to grasp, since soccer has not yet evoked the passions here it does almost everywhere else. Around the world, it is as if the Super Bowl and the seventh game of the World Series were played every day from the June 9 opening game to the final in July. Billions will watch the sixty-three games on television and, in the most directly affected countries,
other activities will stop when the national team plays – which is one reason why all games will be in the evening (European time), leaving Asia sleepless and Latin America with lowered economic activity when the national teams play. Elections have been affected by the mood that victory or defeat generates.

The position of the chairman of the Organizing Committee is particularly delicate. He must satisfy thirty national passions, all but one of which will be disappointed to a greater or lesser degree.

Fortunately for Germany, Beckenbauer is of a stature beyond the reach of these passions. The soccer public – including Germany – is passionate and fickle. But a soccer figure has never reached the iconic status of Beckenbauer who, in his lifetime, has become the towering figure of German soccer and who has planned the approaching World Cup with a combination of meticulous professionalism and personal
attention, which will further solidify his nickname as "The Kaiser" - the Emperor.

I saw Franz Beckenbauer play for the first time when he captained the German national team in the 1974 World Cup final in Munich. A German team with strong fighting qualities defeated a technically elegant team from the Netherlands, which paradoxically handicapped itself when it scored a goal in the first minute, thereby being tempted and innominating to abandon its intricate attacking style in favor of holding its lead.

This enabled the German team to launch a furious assault in front of an enthusiastic audience, achieving the final score just before halftime.

Afterwards the Dutch team attacked throughout the second half with mounting desperation, without being able to score again.

Franz Beckenbauer was the dominant player on the field partly because his game evolved ideally suited to his special qualities. Experts the best all-time player. But dominance is not only a question
of skill; it reflects intangible qualities all the more inspiring when they
are not formally asserted.

Franz Beckenbauer played the position of sweeper – or libero –
the extra man in a defensive formation assigned to filling whatever
holes the attacking team has managed to pry open. Beckenbauer

gave this position a new dimension by transforming it into a dual-
purpose role: of organizing the defense and acting as a quarterback
does in American football, by moving forward on the attack which he

Almost all great soccer players achieve eminence because of
their skill in moving with the football or their ability to score goals.

Though Beckenbauer did possess the latter skill, his most unusual
ability was distributing the football in a way that frustrated the
opposing offense and paralyzed the adversary’s defense. Time and
again, he would propel the ball with a barely noticeable flick of his foot into an empty space closer to his team’s player than to any adversary and to a spot from which his team could magnify its opportunities.

Skill was allied to inspirational determination. Thus in the semifinal of the World Cup, Beckenbauer played, despite a dislocated shoulder, with his arm in a sling. In a sport in which twenty players are moving all the time, with no time-outs and only two substitutions, such dominance reflected a rare combination of athleticism and intellect.

These qualities produced four German championships for the teams he captained, four Cup wins, two World Cup victories, three European championships in a row, participation in 103 national games.

Above all, these playing qualities foreshadowed Beckenbauer’s later career. Few professional athletes – even star athletes – enjoy comparable success in later life; the concentration and single-
mindedness required for eminence have proved difficult to apply to other fields.

Beckenbauer has gone from success to success. He became coach of the national team and instilled the relentless perfectionism that marked his playing career. He reached the World Cup finals with the two national teams he coached, winning in 1990. Afterwards he became chairman of Bayern Munich, the most successful club in Germany.

Beckenbauer has culminated this career by becoming chairman of the Organizing Committee for the World Cup to be held in Germany this year. He was instrumental in securing it and meticulous in execution. The World Cup will solidify Beckenbauer's mythic status in the soccer world.

Dear Franz Beckenbauer,

I saw Franz Beckenbauer play for the first time in Munich, where he captained the German national team in the World Cup Final of 1974. Beckenbauer's team, composed of men of fighting qualities, defeated an elegant team from the Netherlands. Poetically, the Netherlands itself seemed to have a goal in the first minute, thereby being tempted to abandon its intricate attacking style in favor of blowing its lead. This enabled the German team to produce a famous assault in front of an enthusiastic audience, achieving the much-desired lead before the half-time.

Afterwards, the Dutch team attacked throughout the second half with mounting desperation, merely being able to score again.

Franz Beckenbauer was the dominant player in the field, led by hisJermany for whom he played. He was considered by many experts the dominant player of all time.

Dr. Kissinger would be happy to write a piece about Franz Beckenbauer to run in the TIME 100 edition of the magazine. Could you kindly advise us of the exact date on which you will need his contribution? Also, should he refer to Beckenbauer as a nominee for the TIME 100 in the piece?

Thank you,

Jessee

Jesse:

I am writing to see if I can enlist Dr. Kissinger as an author of a short piece on Franz Beckenbauer, head of Germany’s World Cup organizing committee, to run in the TIME 100 edition. Beckenbauer, AKA der Kaiser, was instrumental in bringing the World Cup to Germany (as was Dr. Kissinger in bringing the Cup to the U.S. in 1994.) Beckenbauer is the most influential person in the game this year, and thus a nominee for the TIME 100. I think Dr. Kissinger would have fun with this one, and it’s only 350 words, due in two weeks or so.

Regards.

Sir:

We have heard back from Bob Koehler at TMS regarding the TIME 100 piece. They would like to distribute the piece as a bonus, he said.

Is there anything further you would like me to do at this point (i.e., notifying TIME)?

tc

Normally, his syndicate doesn't allow it.
Dear Bill:

As we discussed, this is to reiterate that Dr. Kissinger has been permitted by the syndicate which distributes his columns to write the piece on Franz Beckenbauer for the TIME 100 edition. In return, the syndicate would like to distribute Dr. Kissinger's piece after TIME has published it. Normally, his syndicate does not allow him to write for outside publications.

Thank you,

TA - can you handle giving this response to HK tomorrow and asking him if you should speak to TIME about this? I have to leave in 5-minutes, so I don't expect to talk to him again tonight.

Thanks,

Hi Bob:

Dr. Kissinger received the following request from TIME. He asked me to check with you if it is a problem for him to give them 400-500 words re Franz Beckenbauer, a German soccer player, to run in the TIME 100 edition. Also, would the syndicate would like the right to distribute such a piece? Could you let me know?

Thank you,
